## Train Kills Three; Injures Five at Fox Lake 4th Celebration

### Three Local People Are Injured in Train Accident

The holiday scene at Fox Lake's Fourth of July celebration last night was turned into one of tragedy when a Milwaukee Road Vacation special train struck a number of spectators, killing three and injuring at least five.

The fire works display was being staged on the American Legion property, route 12, Nippersink lake, and a number of spectators had climbed the railroad embankment as a vantage point. They were warned by Legionnaires and firemen that the tracks were not safe, and a freight train which came through at about 9 p. m. scattered them. Many returned to the tracks after passage of the train, however.

It was at 9:15 that the tragic accident occurred, and it is thought that a display of aerial bombs, exploding at the exact time the train rounded a curve, was a major factor in failure to see the speeding train. It is estimated that the train was traveling at 55 to 60 miles per hour, and that only about six seconds would elapse between the time the train came into sight and its arrival at the point of the accident.

**Local People Injured**  
Among those injured were Sandra Waldweiler, daughter of Mr. and Mrs. Peter Waldweiler of Grass Lake. She suffered two broken legs and other injuries. She was taken to a Waukegan hospital by the Antioch Rescue squad.

Both Mr. and Mrs. Fred Dittmer, Grass Lake, are in St. Therese hospital, Waukegan, being treated for injuries received in the accident. Mrs. Dittmer has shoulder, back and pelvic injuries and Mr. Dittmer is suffering from a compound fracture.

It is believed that the quick action of their son, Gerald, 16, is responsible for saving the lives of his parents, since he first noticed the train approaching and pushed his mother and father from the tracks.

Also injured was Marge Lehman, 13, of Grass Lake, who had accompanied Sandra Waldweiler to the celebration. She was bruised and slightly cut, but not seriously injured.

Those killed were Mrs. Lillian Pavelchik, 116 East Shorewood, Round Lake, Ill., and her son, Gary, 7; and Carl Strand, 42, operator of a motel at Wauconda.

## Burglars Get Office Machines at A.T.H.S. In Break-in Sunday

The Antioch Township High School was burglarized of a \$300 electric adding machine and a \$200 typewriter Sunday evening.

The thieves entered through a window in the cafeteria at the south end of the building and broke a plate glass window in the door of the office in getting at the machines. Principal A. L. Dittman said the school carries burglary insurance and that the adding machine and typewriter are fully insured.

Antioch High School is the third high school in Lake county to have been a victim of thieves. After the schools at Libertyville and Wauconda were burglarized in the same fashion a warning was sent out to other schools to be on the lookout for them.

From appearances the thieves take orders from a "fence" and go out and pick up the type and kind of machines desired after first casing the school.

## High School Summer Band to Present Concert To Public on School Lawn at 7 P.M. Monday

The summer band of Antioch Township High School will present their first outdoor concert at 7 p. m. Monday. The concert, to which the public is invited, will be held on the front lawn of the high school.

Monday's concert will present music in a variety of styles; states Louis Chenette, bandmaster. Soloist will be Dwight Stone, trombonist, accompanied by Lenore McCord. Special numbers will be presented by a popular trio consisting of Jay Cribb, trumpet, Bill Hendricksen, guitar, and Frank Albert, string bass.

Following is the program to be presented:  
National Anthem  
March: Conroe  
Overture: Dorian—Whitney  
Solo: Dwight Stone, trombonist, accompanied by Lenore McCord

## Fire Department Dance Biggest In Its History

A bigger crowd than ever attended the Fire Department's annual dance Saturday night. A total of 3,371 tickets were sold for the event.

Music for dancing in the fire station was furnished by King Jaros orchestra. Refreshments were dispensed in the Rescue Squad quarters.

George Borovicka, local druggist, had charge of the food and he not only fixed and sold the sandwiches, but supplied the materials for it gratis.

## Village Board Grants Use Of Scout House For Kindergarten Class

With the granting of the Scout House by the Village Board for use of kindergarten classes, the Antioch Community Consolidated School system has housing for its pupils for next year.

The board told Supt. Whitacre the school could have the use of the main room of the building for \$100 a month rental if the floors are conditioned by the school and janitor service provided as needed. The village will provide light and heat. Classes are to be arranged so that they do not conflict with club meetings.

Two years ago the building was used for an overflow.

In addition to the Scout House, the school will use Oakland School building and all rooms of the old building on Main st. to take care of increased enrollment.

By the following year the school board hopes to have an additional new building to house the overflow.

By the action of the board Tuesday evening retention of kindergarten training was assured.

## Chicago Boy Scout Revives Swimmer at Channel Lake Resort

Charlotte Meyer, 17, of West Salem, Wis., was rescued from the waters of Channel lake late Sunday afternoon when she became exhausted while swimming from a raft to shore at the Holmes resort.

A Chicago Boy Scout revived her through artificial respiration. The girl arriving near the end of the pier thought she was in shallow water and when she failed to touch bottom became excited and went down. Her brother, Maynard, bartender at the Holmes resort, who couldn't swim, tried to reach her, but couldn't.

Dennis Holmes, 17, son of the resort owner, and Billy Miller, his companion, arrived a moment later in a boat and fully clad, jumped in and found Miss Meyer in about 8 feet of water.

They brought her to shore and two strangers tried artificial respiration. A youth, Laverne Fabian, Chicago, noting that the men were using poor methods and getting no results asked Holmes permission to use his methods which he had been trained in by the Red Cross while a Boy Scout.

Holmes consented and within a short while Miss Meyer began breathing and opened her eyes. The Antioch Rescue squad had been called and when it arrived the members gave her oxygen to prevent shock.

## Chicago Boy Scout Revives Swimmer at Channel Lake Resort

Cherubim Song—Bortniansky  
Rhapsody: Deep River—arr. Walters  
March for a Festival—Akers  
Overture: On a Mountain Top—Masters  
Special: Trio: Jay Cribb, Frank Albert, Bill Hendricksen  
Paraphrase: The Gypsy Baron—Strauss  
Fantasy: Vincent Youmans—arr. Yoder  
Adequate parking is available in the high school parking lot. The music boosters club will sponsor an ice cream social during the concert, proceeds to help defray the band's expenses to the state fair.

**Take Field Trip to Ravinia**  
The band accompanied by sponsors and their director will take a field trip on Friday evening. They will travel to Ravinia Park at Highland Park to hear the Chicago Symphony orchestra. Buses leave the high school at 6:30 p. m.

## Rain Halts July 4 Fireworks; Program To Be Held Sunday

Antioch's Fourth of July celebration will be held Sunday evening, July 8, because of wet weather late on the Fourth. Chief Edgar Simonsen, in charge of the fireworks and program, said today that the celebration would take place at 8:00 p. m. at the village property east of the Soo line tracks.

Simonsen said that most of the fireworks display pieces had been set up when the rain started, and that since the weather threatened to provide a downpour, that it was decided to postpone the celebration until Sunday evening.

The program Sunday will begin with a one hour concert by the Antioch Community band, and the fireworks displays will begin at 9:00.

Access to the village acreage is across the Soo Line tracks at the east end of Ida avenue. The grass has been mowed and parking spaces marked. A number of firemen and auxiliary police will be on hand to direct traffic.

## Oregon, Ill. Burglars Accused of L. Villa Bank Robbery, June 7

**Possesses Gun Stolen From C. F. Spiering Home Near Antioch January 28**

Two men implicated in the robbery on June 7 of the Lake Villa Trust and Savings Bank have been ordered held for federal grand jury.

They are Edward Arnold, 28, of 4926 45th st., Kenosha, Wis., and Edward C. Bond, Jr., 30, of Plainfield, Ill. Arnold was captured June 26 in a burglary investigation at Oregon, Ill., and his arrest led to that of Bond, operator of a car washing service in Joliet, Ill.

Still sought as the driver of the getaway car at Lake Villa is Edward Riley 33, of the Plaza hotel, Kenosha, who operates a trucking fleet. Arnold and Bond, now under \$25,000 bond each, are said to have confessed their part in the Lake Villa robbery.

That they participated in the burglary at the C. F. Spiering residence on Rte. 45 near Hickory Corners Jan. 28, is believed in view of the fact that a gun found in their possession is one stolen from the Spiering home.

The Spierings say that neither the F.B.I. nor county police have contacted them about the possibility of this situation.

Two other Kenosha men who have been questioned in connection with robberies are Jack Fioravanti, 32, and Melvin Lemke, 24, who went with Arnold's wife to the jail at Oregon to see her husband. They are implicated with Arnold in four burglaries at Oregon and one at Sterling, Ill. They are being held on \$10,000 bond.

## Joan Burton to Attend Conservation School

Joan Burton, daughter of Mr. and Mrs. John Burton, Morley's Subdivision, will leave by train on Sunday for the State Fair Grounds at Springfield where she will spend a week at the Conservation School as a guest of the Antioch Woman's Club. Joan was selected because she was an outstanding biology student.

## Development of New Athletic Field For H. S. Is Considered

### Meeting Monday Will Include Chamber and Village

Plans for improvement of land east of the Soo Line tracks owned by the high school will be discussed at a committee meeting to be held at the school Monday, July 9. Lester Hamlin, Mrs. Richard Seyfarth, Harold Wilson, and Roman Vos, all members of the board of education, will meet with representatives of the Antioch Chamber of Commerce and the Antioch Village board.

Present plans call for development of the land which was purchased by the board some years ago into a first class athletic field. Additional land, acquired from Dr. G. W. Jensen this year, will allow access to the property from route 173.

Arrangements have been made to meet with an engineer of the Soo Line railway to inquire into the possibility of installing an underpass to provide access to the new field from the present school grounds.

Chamber and village representatives are expected to try to work out plans which would allow a roadway to be extended from Depot street south to route 173. This has long been the aim of the village, but until the Jensen property was acquired no suitable outlet could be obtained. It is thought that the high school board will favor the plan because it would provide better access to the new athletic field.

At present work is going ahead to prepare topographical maps of the property, and an architect will be secured to prepare preliminary plans for the field.

## Lake Villa Legion Buys Building at Lindenhurst For New Post Home

Purchase of the former administration building of the Lindenhurst Estates in Lake Villa from N. H. Engle and Sons by the Lake Villa American Legion Post 1219 was announced recently.

Final negotiation awaited zoning approval in the change from residence to club.

The building was formerly a farm superintendent's residence on what was originally the E. A. Siebel farm, later known as the Lindenhurst Farm.

The new owners took possession of the house on Monday and have it remodeled for use at their next meeting there on July 17, according to John E. LaMont, publicity chairman. Henry Kraemer is commander.

The following slate of officers will be presented by the nominating committee on July 17: John E. LaMont for commander; John Ludford for senior vice commander; James Prader for adjutant; Earl O'Brien for chaplain; Richard Nelson for sergeant-at-arms, and Charles Card for service officer.

## Doty Home From Hospital

Arthur Doty, son of Dr. and Mrs. Warner Doty of Chicago, who was badly hurt on May 28 when his car left the road on Rte. 173 and crashed into a telephone pole near Rosecrans, is now being cared for at the family summer home in Felter's subdivision. He left Victory Memorial hospital, Waukegan, on June 24 after being treated there a month for a fractured pelvis, broken left elbow and head injuries. He is making a satisfactory recovery. A safety belt is believed to have saved him from death.

## Lions Club's Aqua Center Opened to Public Sunday With Big Patronage, Season Ticket Sale; Dedication Program Planned for Sunday, July 29

### Maplethorpe and Ehnert To Head Village Water-Sewer and Street Depts.

#### Move to Divide Work Is Made Necessary by Growth

Charles (Tod) Maplethorpe, an employee of the Village water and sewer department for some time was appointed superintendent of that department of the village at a meeting of the board Tuesday evening. Maplethorpe qualified as a water and sewage disposal plant operator some months ago and has had special training.

At the same meeting Emil R. Ehnert, an employee of the street department, was named superintendent of streets.

The move to distribute authority and responsibility among village employees has been made necessary by the growth of the village, and the complexity of duties carried out by the village employees. Prior to this time Police Chief Walter Scott has carried the burden of these two jobs in addition to his duties as police chief, building inspector, and other work.

It is thought that the move will promote efficiency and allow a more thorough job to be done in all departments.

## Committee to Study Twp. Unit School Plan Will Meet on July 12

### New 22-Member Group to Confer at Lake Villa Grade School

A unit school district is under continued consideration in Antioch township.

A committee comprising representatives of the various grade schools of the township will meet at the Lake Villa Grade school July 12 to study the possible reorganization of schools within the Antioch Township High school district.

The committee comprises a board member and a lay member of each school district appointed by the district itself.

Letters were sent out to the various school boards appraising them of the result of the last meeting, when the study group was agreed upon and the appointments are the result of that study.

All schools responded with the exception of Spring Grove. Principal A. L. Dittman of the high school said, and it is hoped that that district will be represented because a part of it is within Antioch township.

The school representation on the committee follows:

Antioch Township High School—Dr. Richard A. Carlucci and Atty. Ted C. Larson.

Channel Lake—Elmer E. Eberman, Jr., and Mrs. Lucille Kuechenmeister.

Grass Lake—Harry Jesse, and Lester Hribar.

Lotus—William Wiczorek and Mrs. Doris Kephart.

Hickory—Clarence Spiering and Vincent Stonis.

Lake Villa—Clark Wetterberg, John Brandt, and Bert Hooper.

Emmons—Robert Duha and Mrs. Geraldine Olsen.

Antioch Grade School—Norman Jedele and Wendell Nelson.

Millburn—George DeYoung and Robert Denman.

Newport Elementary School Dist. No. 11—William Haydon and Alfred Ames.

Ex-officio members appointed at the last meeting are Howard Gaston, County Supt. William C. Petty, and Principal Albert L. Dittman.

**Meeting at Scout Home**  
Retarded Childrens Parents! Attention! Meeting at Antioch Scout House, 760 N. Main St. Thursday evening, July 12, 7:30 p.m. regarding your child's education. For further information call Antioch 282-72.

## To Get Bids on State Line Rd.

Bids are to be received in the next few days on the improvement of State Line rd. from Main st. to Antioch to Rte. 45. The base will be constructed this year and the capping next year. The bids will be opened at the office of County Highway Supt. M. E. Amstutz at Libertyville.

## Grand Opening to Present Three Big Parades 2 Hours Apart With Three Bands

### Interview on Success of the Pool to Be Broadcast Over Station WKRS

Through strenuous efforts, the Lions Swimming pool at Williams park was ready for public inspection Sunday and by 2 p. m. the gates were opened to a waiting crowd that sought relief from the 94-degree temperature.

The pool is all that was promised and more, too, and is one that the community can be proud of.

As many as 150 persons were enjoying its clear waters at one time Sunday and Monday. Cooler weather reduced the attendance Tuesday but the crowd was back yesterday.

To get the pool ready, Manager Warren Polley and an assistant drove a truck to Ft. Wayne, Ind., Thursday afternoon and came back Friday with the filter which in a matter of two hours was attached ready for use by the Carey Electric and Plumbing company.

Lions Club members in the meanwhile erected the diving boards and guard perches and other equipment.

The housing of the filter system has been completed.

**Dedicated Sunday, July 29**  
Dedication and grand opening of the Aqua Center will take place Sunday, July 29, John Dupre, program chairman announced.

The program calls for not one, but three big parades. The first at 1 p. m. will be headed by the color guard and grade school band followed by Scout organizations and Little League players, and bathing beauties up to 12 years of age.

The second at 3:30 p. m. will be headed by the high school band, followed by the fire department, rescue squad, Pony League players, and bathing beauties up to 25 years of age.

The third parade will be at 5:30 p. m. and will be headed by a military band followed by professional performers, merchant floats, speakers and dignitaries.

The parades will move from the high school to the Aqua Center in Williams park.

**Swimming Pool Announcements**  
There will be an "adults only" swim on Wednesday evenings.

The Training Aid program will run the week of July 16-20. It is open to any adult who would like to train to assist Red Cross instructors teaching swimming.

Registration and try-outs for class placements for swimming lessons will begin on July 23 and run that week. Children must have been either to kindergarten or first grade to enroll. Enrollment blanks are available in some of the village's business places and at the pool. The fee will be \$3 for the Red Cross course which will meet twice a week in morning hours for at least four weeks.

There will also be adult swimming lessons and these will begin on the evening of July 18.

Children under 12 must be accompanied by a parent to attend night swimming.

## Village Board To Provide Mosquito Abatement Spray

Antioch village fathers acted Tuesday evening to put an end to the mosquito problem in Antioch when they contracted with the Clark Outdoor Spray company of Riverside, Ill., to give Antioch a complete spray job.

The initial spray job will include a "special spray job" on all catch basins, and low spots which might provide breeding grounds for the pests, and will cost \$285.00. After the initial job the village will be sprayed at a cost of \$200.00 as needed.

Mosquitoes are especially troublesome this year, conditions having been perfect for them, and this action by the board is a result of numerous requests by residents.

## Parking Lot at Aqua Center

To help establish limits of the parking lot at the Aqua Center, the village will lay telephone poles which will be furnished gratis by the Public Service Co. The request for aid in preparing the parking lot which later will be oiled, was made before the board Tuesday evening by Dr. G. W. Jensen, official of the Lions Community Service, Inc., promoters of the pool.

### Economic Highlights

The older worker in business and industry—in this era of lengthening life expectancy—presents a serious problem in human values. That problem has been widely discussed in late years.

In addition, the older worker constitutes an economic problem of growing dimension. This—with related issues—is the subject of a feature article by Winston C. Fournier in the Wall Street Journal.

Early in the article Mr. Fournier quotes the manager of one big company pension fund as saying: "Pensioned retirement from the job is becoming an accepted part of the cost of doing business. Yet many of us are just beginning to realize the implications on our hiring policies, our relations with unions, shareholders and the public, and with the tax collector." The result is a set of questions for which specialists in the field are now seeking answers. These questions range from what age a man should be retired to what a company can do about overcoming the individual's resistance to retirement.

Speaking in financial terms, worker retirement is a very big matter indeed. Company retirement plans now cost \$4 billion a year—and only about 20 per cent of the nation's working force is thus covered. A much heavier drain on government social security funds is also inevitable if the old policy of retirement at 65 continues. According to Mr. Fournier, about 14 million Americans have now reached or passed 65, and it is forecast that the total will reach 21 million by 1975—a 50 per cent jump. He quotes another specialist as saying: "If we were to provide even a modest private pension for such numbers, the reserve funds required would exceed the present national debt (about \$275 billion) or the current value of every share of stock listed on the New York Stock Exchange."

A short time ago, 40 policy-level executives, representing concerns contributing \$500 million a year to pension plans, met in what amounted to a retirement seminar. Among other things, there was general agreement that the retire-at-65 idea is the wrong one. More and more pension plans are now based on a flexible rather than a fixed retirement age.

Another development is "a rapid rise in the number of companies inaugurating pre-retirement programs, to teach their workers how to adjust financially and emotionally to retirement." One company has established an 11-week course which employees on the brink of retirement attend on a voluntary basis. Wives are invited too. In addition to personal discussion, each employee is given 10 booklets dealing with such matters as financial planning, where to live, how to spend leisure time, health and nutrition, and so on.

The point of this, in the words of still another expert quoted by Mr. Fournier, is that "just having enough money to live on doesn't prepare a man for

leaving his job." So more and more American businesses are concerning themselves not only with the efficiency of their working force, but with the future of the worker after his productive days are over.

### Toward a New Despotism

"Liberal" is a grand old word. But its true meaning and its significance have been tragically distorted in recent times.

Henry Hazlitt describes what has happened in the introduction of his new book, "The Free Man's Library." He writes: "One of the crowning ironies of the present era . . . is that it is precisely, especially in America, the people who flatteringly refer to themselves as 'liberals' who have forgotten or repudiated the essence of the true liberal tradition. . . . Historically, the liberals fought against government tyranny; against governmental abridgement of freedom of speech and action; against governmental restrictions on agriculture, manufacture and trade; against constant detailed governmental regulation, interference and harassment at a hundred points; against (to use the phrases of the Declaration of Independence) 'a multitude of new offices' and 'swarms of officers'; against concentration of governmental power, particularly in the person of one man; against government by whim and favoritism."

"Historic liberalism called, on the other hand, for the Rule of Law, and for equality before the law."

Today's self-styled liberals are enthusiastically in favor of just about everything the historic liberals opposed. Their goal is to concentrate more and more power—over business, agriculture, labor, everyone—in the hands of the government. They are, for the most part, contemptuous of state's rights, and believe in a solidly concentrated central government, in which all major decisions are made in Washington. The result is what Mr. Hazlitt accurately terms "a trend toward a new despotism."

Real liberalism stands for maximum freedom for all. It is predicated on the principle that government is the servant, not the master, of the people.

### Newspapers and Economic Well Being

If anyone still wonders just how valuable the newspaper is as an advertising medium for retailers—in this era when other media are competing vigorously for business—he would do well to study a survey made by the Bureau of Business Research of Michigan State University.

The survey deals with the effect on retail sales of last December's newspaper strike in Detroit. It shows that a gain in over-all sales in the Detroit metropolitan area during the strike period was due to buying in the suburbs. Sales in the downtown area actually declined by \$35 million.

Editor & Publisher says editorially: "The Michigan State analysis . . . is one of the greatest testimonials for newspaper advertising that has ever been written. . . . It . . . adds to the growing volume of data showing that wherever a community is deprived of its newspapers all business suffers."

" . . . When general business conditions are good customers do not just naturally gravitate to a store. They have to be attracted by advertising, particularly newspaper advertising. People react to a sales message in newspapers. They do not react if the sales message and (or) newspaper is missing. Newspapers are essential to the economic well being of the business community."

That goes for the smaller papers as well as the larger ones—and for the villages as well as the metropolitan center of population.

ily attended the 25th wedding anniversary celebration for Mr. and Mrs. Myrus Nelson at Antioch Sunday evening.

Miss Sylvia King returned home Sunday from a week's vacation with relatives in Whitewater, Wis.

Miss Christine King is visiting at the home of her grandparents, Mr. and Mrs. Chris Paulsen, at Whitewater, Wis., this week.

Mrs. Elmer Hauser and children of Millburn spent Thursday afternoon and evening with Mrs. Wilson King and children.

Mr. and Mrs. Arthur Lautz and two children from Lombard, Ill., were Sunday evening callers at the

Bill Gerber home in Antioch and the Eddie Van Patten home. They were friends in Tennessee several years ago.

Mr. and Mrs. Wilson King and children were Sunday dinner guests

at the home of Mr. and Mrs. James Dorsey at North Prairie. Other guests were Mr. and Mrs. Chris Paulsen, and Mr. and Mrs. Leo Fitzgerald and family from White-

Sonman first class Frank Lux and Mrs. Lux and son, Dale, Norfolk, Va., returned to their home Friday after a few weeks stay with Mr. and Mrs. Ben Kunz and Mr. and Mrs. Frank Lux, Sr., Antioch. Mrs. L. Sweet, Richmond, spent the week-end with Mr. and Mrs. Elmer Rasch. Mr. and Mrs. Robert Hastings and daughters, Detroit, Mich., Mr. and Mrs. R. Wagner, Kenosha, spent Tuesday with Mr. and Mrs. Ervin Rasch. Randall Rustlers 4-H girls held their cooking meeting at Mrs. Wayne Tilton's. Sandra Rasch had the Randall Rustlers cooking class at her home Tuesday. Mr. and Mrs. Joe Morman, Adrian, Minn., Mr. and Mrs. Carl Creakman, Iowa, Mrs. Susan Seitz, Brighton and John Frederick, Paris, spent Sunday with Mr. and Mrs. Mike Seitz.

## CROCHET A BLOUSE... Sweet as Sugar Candy

A sparkling sweater-blouse teamed with a wide and wonderful skirt of polished cotton, makes a pretty party outfit for a young girl. The blouse is crocheted in a fancy openwork stitch. For a sub-teen, choose light blue or pink Kentucky All Purpose "Decorative" yarn. The shining silver thread twisted with the lustrous all-rayon yarn, gives a cool, frosty look — with just a hint of sophistication. Kentucky All Purpose yarns are completely washable. They won't fade, or shrink, or lose their built-in luster. For a free leaflet with instructions for making this sweater-blouse, send a stamped, self-addressed envelope to the Woman's Editor of this paper.

Mr. and Mrs. Geoffrey Goulding spent Saturday at Libertyville, Ill. Dennis Wertz, Chicago, is spending some time with his grandparents, Mr. and Mrs. William Wertz. Mr. and Mrs. Carl Erdwan, West Allis, were Sunday afternoon callers of Mr. and Mrs. Harvey Brown. Mrs. Donald Brown, Randy and Gregory and Mrs. Harvey Brown spent Wednesday with Mr. and Mrs. Stanley Brown, McHenry. Mr. and Mrs. Gust Ruppert and Freddie, New Munster, spent Sunday with Mr. and Mrs. Ronald Shottliff. Mr. and Mrs. Ferdie Jahns returned home Friday evening from a two weeks visit out west. They spent a few days with Harold Elverman, Calif. Twenty-four ladies of the Peace Lutheran Ladies Aid spent Tuesday at the Bethesda Lutheran Home and at Watertown College. Mrs. Wallace Miller and infant daughter returned home Monday

## YOUR KITCHEN—10 degrees cooler—

WITH A NEW ELECTRIC RANGE!

The happiest surprise a woman gets with her new electric range is that her kitchen stays cool in hot weather... even if the oven's on for hours!

The reason: a modern electric range keeps your kitchen about 10 degrees cooler. Why? It keeps the heat in the oven where it belongs.

But electric ranges offer many other advantages. Today, nothing cooks faster! And many have thermostat-controlled surface units that put an end to pot watching. And they are cleaner to cook with. Your kitchen stays about twice as clean.

You'll also find scores of "new idea" features. There are automatic roast meters, French-door ovens, built-in rotisseries, and many more. See them now at your electric appliance dealer's. Find out how easy it is to have a modern electric range in your kitchen.

**Big saving—we pay part of  
your range installation cost!**

Need modern wiring? We share the cost with qualified home owners in 1, 2 and 3-family dwellings.

**And you get more than  
a money saving!**

Modern wiring helps improve your TV picture, brightens lights, makes everything electrical work better. You can also install a 240-volt electric dryer, water heater or air conditioner quickly and cheaply. The Share-the-Cost Plan is available on terms of up to 2 years.

# SOCIETY EVENTS

## Barbara A. Barthel Bride of C. F. Smith

Faith Lutheran Church in Antioch was the scene Saturday, June 16 for the marriage of Miss Barbara A. Barthel to Charles James Smith, son of Mr. and Mrs. Charles M. Smith of Grass Lake, Road.

The 4:30 p. m. single ring ceremony was performed by the Rev. R. P. Otto.

The bride, who is the daughter of Mr. and Mrs. Carl L. Barthel of Antioch was given in marriage by her father. Her wedding gown was designed of chantilly lace and nylon net over satin, the molded lace bodice with its long tapering sleeves featured a nylon tulle illusion neckline topped with tiny lace mandarin collar. Alternate panels of lace and tulle circled the bouffant hooped skirt. A fingertip veil of imported French illusion fell from a high pleated net coronet sparkling with pearls and sequins. Her bouquet was of white gladioli.

Wearing waltz length gowns of white horsehair net over coral taffeta Miss Betty Jean McDougall, bridesmaid and Mrs. Annabelle Nielsen, sister of the bride, as matron of honor. Their dresses featured fitted sleeveless bodice with scoop necklines and crushed taffeta cummerbund waists. From the tiny waistline swept very full skirts of net over taffeta with streamers of matching taffeta drifting down the back.

Louis Nielsen was best man for Mr. Smith and the ushers were Russell Barthel, Robert Gross and Charles Jorgensen, Jr. Mrs. Carl Hawkins sang accompanied at the organ by Mrs. Pfleger. The bride is a graduate of Antioch Township high school and Lake Forest College.

A reception was held at the American Legion home. The couple are honeymooning in Nassau.

## John L. Horan Heads Knights of Columbus

John L. Horan was installed Grand Knight, at a meeting of the Knights of Columbus Tuesday evening at Antioch American Legion home.

Other officers installed are: Jos. J. McGrath, deputy Grand Knight; Melvin A. Umehof, Chancellor; John A. Seisser, Treasurer; Albert E. Fuller, recording secy.; Ray C. Yancey, Warden; Arthur M. Edwards, inside guard; Emil Kubs, outside guard; Wm. B. Bosworth, Jr., financial secretary.

Trustees elected are Francis H. Mitchell, Walter Farrel, and Edmund F. Vos.

## Robert Cain Begins Training at Ft. Wood

Fort Leonard Wood, Mo.—Pvt. Robert E. Cain, son of Mr. and Mrs. Milburn C. Cain, 672 N. Main st., Antioch, Ill., recently began six months of active duty training at Fort Leonard Wood, Mo., under the Reserve Forces Act.

Cain is receiving eight weeks of basic combat training, which will be followed by advanced individual and unit training. Men volunteering for the six-month tour of active duty are permitted to finish their military obligation in local Army Reserve or National Guard units. Cain was graduated from Antioch Township High School in 1956.

## Plan Garden Visitation

The Garden Section of the Antioch Woman's Club will meet at 1:30 p. m. at the home of Mrs. Dudley Kennedy from which a garden walk to the homes of the members will begin. There will be a short business meeting at the conclusion of the afternoon to start plans for the coming year.

A Holbrook House demonstration of cooking will be featured at a meeting of the Women's Society of Christian Service of the Methodist church Tuesday, July 10 at 1 p. m. at the church. Refreshments will be served following the demonstration.

## Attend Federation Meeting

Mrs. Clarence Spiering and Mrs. Louis Biel represented the Antioch Woman's Club at the meeting of the Lake County Federation at the Waukegan home of Mrs. E. V. Lake last week. The proposed county health unit was a major topic and was approved. Mrs. Spiering is president of the local club and Mrs. Biel is corresponding secretary for the federation.

## Birthdays Celebrated at St. Ignatius Meeting

Several members of the Woman's Auxiliary of St. Ignatius' Episcopal Church celebrated birthdays at the auxiliary's meeting last Thursday evening at the home of Mrs. J. B. Fields.

At this meeting the group planned to abandon the stainless steel project, as it was announced that this gift to the church had been made by Mrs. Stella Bock and Mrs. Lillian Moore.

Mrs. Irvyn Jones returned home recently after a visit with her mother, Mrs. E. Wolletz at Cleveland, Ohio. Mrs. Wolletz has been very ill.

## Women of the Moose Install Officers for Year Before Guests

Officers were installed by the Antioch Chapter 735, Women of the Moose at the Antioch Grade school last Thursday evening.

The installation ceremony was performed by Blanche Horton, chairman; Ben Noble, regent; Gerald Jung, chaplain; Gertrude Good, guide; and Lorraine Lindblad, pianist.

The Antioch ritual team comprising Jack Stieber, Henry Grewe, Art LaPlamme, Lester Nelson, Clarence Jarvis, and Douglas Palm served as escorts.

Present at the installation were 517 members and their 26 guests which included 19 members of Loy-al Order of Moose No. 525 and a visitor from the Cicero chapter.

The new officers are Jane Meyer, junior graduate regent; Harriet Grewe, senior regent; James Verkest, junior regent; Mildred Gillum, chaplain; May Palmer, recorder; Gloria Carrick, treasurer; Erna Toft, guide; Dorothy Puig, assistant guide; Arvis Nelson, argus; Evelyn Burnett, sentinel; and Alice Bushmole, pianist.

New committee chairmen and escorts will be announced later.

## Grass Lake Scout Home Organization Relates Plans for Big Barbecue

Plans are rapidly taking shape for the second annual chicken barbecue of Grass Lake Scout Home group to be served at 1 p. m. and thereafter on Sunday, July 15. Sunday, July 22 is the rain date.

Barbecue pits will be set up back of the Grass Lake school and the public will have the enjoyment of eating a fine meal in the open. Last year 700 persons were served.

The grounds will be sprayed to get rid of mosquitos.

A meeting of the committees will be held July 9 at the Scout Home when the menu will be planned, and a meeting of the men and women of the organization will be held on Wednesday, July 11 at the same place.

Barbecue committee chairmen are: Mrs. Robert Meyer, tickets; Mrs. R. H. Tutten and Senior Girl Scouts, posters; Mrs. Francis Burke, publicity; Mrs. L. Hribar, planning and grounds; Mrs. F. Mitchell and Cy Werda, prizes; Mrs. L. Hribar and Mrs. Robert Hart, menu and food; Mrs. Anton Deutsch, decorations and bingo; Mrs. Walter Mozal and Cy Werda, tables; Joe Dobson, Geo. Pierce, and M. Wajnowiak, signs.

## 4-H Leader Training Friday at Libertyville

A Records School for Home Economics 4-H leaders and older club members will be held at 1:30 p. m. tomorrow at the Libertyville Methodist church. The home adviser Mrs. Helen Volk, will train the leaders and 4-H girls on how to fill out project honor members and outstanding club member blanks. These blanks will be graded at the Finish-up School to be held in September.

Mrs. Roy Fleming, County 4-H chairman, will distribute the tickets for the Theatre party planned for August 9 at Lake Forest College.

Plans will also be made for the Annual 4-H Home Economics Show, which will be held at Libertyville-Fremont High school Butler Lake building on July 20. At that time, all those enrolled in the Clothing project will have their garments judged and will put on a Style Show for the public. Representatives of the Foods and Room Improvement Clubs will participate in a demonstration contest.

## Dist. Share-the-Fun Festival on Friday

Lake County 4-H clubs will be represented with three acts and a Master of Ceremonies at the District "Share-the-Fun" festival, to be held this evening at St. Charles High school. Eleven other counties in northeastern Illinois will compete at this festival.

## Mock Wedding Highlight At Nelson Party Sunday

A mock wedding was one of the highlights at the silver wedding anniversary party of the Myrus Nelsons Sunday night at the Atherban Legion hall.

Those participating were Mrs. John Blackman, bride; John Horan, minister; Roy Bolton, groom; Mrs. August Teckert and Mrs. Charles Cermak, bridesmaids; Dudley Kennedy, best man; John Blackman, usher; Lester Nelson, father of the bride; Mrs. Henry Rentner, flower girl; Alvin Nelson, ring bearer; Deborah Van Patten, pianist; and Charles Cermak, soloist. Bruce Daigaard portrayed an unruly baby at the ceremony.

Many relatives and friends were present at the anniversary party which featured dancing to the music of Bessie Barnes' orchestra.

Mr. and Mrs. Rudy Garber and children of Lake Mills, Wis., were Sunday dinner guests of Mr. and Mrs. William Gerber and family.

## Mrs. William Strahan Named I.D.S. Queen; Receives Added Award

Mrs. Grace Eileen Strahan, wife of William L. Strahan, local representative of Investors-Diversified Services, Inc., has been honored by the Company as IDS Queen in her husband's sales division. Mr. and Mrs. Strahan live at First street.

The honor is accompanied by an award and is given to the wife of the representative in each 147 divisions who achieves leadership by making the top production record in his division. The 2,400 representatives in the Company's Na-

tionwide sales organization compete for the honors accorded their wives by distributing the face amount investment securities and mutual fund shares issued by eight subsidiary and affiliated companies in the Investors Group, for which IDS is the distributor and investment manager. The 82 year old Company's assets under management now total more than \$2 billion.

From the divisional queens in each of seven regions is chosen the regional queen. She is the wife of the representative with the highest production record among the divisional winners. The IDS regional queens receive additional awards.

## More Than 400 Army Reservists Go to Camp McCoy from This Area

Over 400 Army Reservists from Northern Illinois donned Army khaki Sunday, July 1 for two weeks of field training at Camp McCoy, Wis.

Members of the 337th Infantry Regiment, an active army reserve unit, with headquarters in Waukegan, will put into actual practice the military subjects they have been studying at reserve meetings all year.

"From reveille at daybreak Monday morning until they break camp two weeks later, every man will be performing his assigned military job," said Lt. Col. Carl J. Dueser, Commander of the 337th.

Rifle and mortar firing, tactics, and map reading and compass problems will fill the bulk of the training period. All training and administration is handled by the reservists themselves.

"Trained Army specialists from posts throughout the midwest will be there to help us and bring the unit up-to-date on the newest Army teachings."

An eight man advance detail from the unit left June 28 to set-up "housekeeping" for the main body of the 337th, according to the Colonel.

The 337th Regiment has units throughout Illinois, in Waukegan, Des Plaines, Rockford, Aurora, Ottawa, Mt. Morris, Rock Island, Galesburg, and Macomb. The regiment is part of the 85th (All Illinois) Reserve Division.

## Parents of Son Mr. and Mrs. Raymond Baethke are the parents of a son born July 1 at Victory Memorial hospital.

## Mrs. Spiering Hostess at Come-as-You-Are Party

A "Come as You Are" party was held at the home of Mrs. Clarence Spiering for members of the Garden Section of the Antioch Woman's club on Tuesday morning with nine members present. Fresh strawberries and strawberry jam from the hostess' garden were featured on the menu.

## Chosen Missouri Representative Marilu Bushing, daughter of Mrs. Marie Bushing, was named grand representative to Missouri for Illi- nois at the Grand Assembly of the Order of Rainbow for Girls in Chi- cago last week.

## Plan Cooking School A cooking school sponsored by the Woman's Society of Christian Ser- vice of the Methodist church will be held next Tuesday at 1:30 p. m. in the church hall.

## Industry to Get Gas Cheaper

Use of gas by industry is liberalized and gross charges on large-volume industrial use is reduced in a notice for proposed change filed with the Illinois Commerce Commission by the Northern Illinois Gas Co. on June 29. Elsewhere in this paper the notice in greater detail is printed.

## St. Benet Bookshop To Open at Wilmette At 4 p.m. Wednesday

Residents of this area can look forward to a new shopping experience when the St. Benet Library and Bookshop opens its doors at 1225 Green Bay road, in Wilmette.

The new Catholic center will open officially on Wednesday, July 11, at 4 p. m. with a blessing by his eminence Samuel Cardinal Stritch, Archbishop of Chicago. St. Benet's will feature religious books and are from all over the world and will service nearly 100 parishes in a 40 mile area from Chicago's north side to the Wisconsin line.

Heading the new venture will be Miss Nina Polcyn, of Milwaukee, currently manager of the St. Benet shop in downtown Chicago. A former schoolteacher and a copywriter, Miss Polcyn came to St. Benet in 1947 from the Shell School of Social Studies, where she was assistant at St. Benet will be Roe Ann Shulteis, of Wilmette.

"Good religious art knows no boundaries of time or place," Miss public to attend the opening at St. Benet. "A silver crucifix from Belgium, many-colored ceramic madonnas from Italy, nativity figures in wood and straw from Sweden—each has a different kind of beauty, and their appeal is as varied as their origin."

St. Benet's book department will

**Through the  
Oven Door**  
by your  
**Ceresota  
REPORTER**

**Does Your Oven  
Brown Unevenly?**  
Maybe it's because your kitchen range is a bit on the bias. If your kitchen floor isn't level for any reason, the oven can't do an even job of browning. Just a carpenter or a carpenter's spirit level and put your range on an even keel.

Summer's the time for family fun, for picnics and parties. And that means getting things done ahead of time. One woman tells us she does her baking in the evening after the children are in bed. Another friend doubles her recipes and keeps the dough in the refrigerator ready to bake at a moment's notice. And then there's the woman who had an old-fashioned Dutch oven built outdoors, and does her summer baking on the patio where her family and friends are gathered.

You've been reading a lot about protein—the substance that body cells are made of—as necessary to life as the air we breathe.

So you who like Ceresota flour for its better baking qualities will be glad to know that you can like it for its higher protein content, too. That's because Ceresota is made from slow-maturing wheat, where the nature is bountiful in storing protein. And to preserve nature's goodness, Ceresota is **NATURALLY white**, because only Ceresota is **unbleached**.

**Summer quick-and-easies.**  
When you feel the urge to do something interesting with your hands and your recipes, but only want your oven on a few minutes, try the recipe below. Easy to turn out and mighty good nibbling.

## CUP CAKES

**Out of the oven in 20 minutes!**  
**Ingredients:** 1/4 cup shortening, 1 cup sugar, 2 eggs, 1 1/4 cups sifted unbleached Ceresota flour, 1/2 tsp. salt, 2 tsp. baking powder, 1/2 cup milk, 1 tsp. orange extract, 2 tsp. grated orange rind.

Cream shortening, sugar together. Add eggs. Beat thoroughly. Sift together dry ingredients, add alternately with milk to creamed mixture. Add orange extract and rind. Pour into greased 2 1/2 inch muffin pans. Bake at 375° F. for 20 minutes. Top with Orange Icing. Yield, 1 1/2 dozen.

**Orange Icing:** 2 cups confectioner's sugar, 3 tbsp. orange juice, 1 tsp. softened butter, dash of salt. Sift sugar. Slowly add orange juice. Mix well. Add fat, salt. Mix thoroughly.

## BUTTERSCOTCH COOKIES

**Only 10 to 12 minutes oven time!**

**Ingredients:** 1/2 cup shortening, 3/4 cup brown sugar, 2 tsp. hot water, 1 egg well beaten, 1 1/4 cups sifted unbleached Ceresota flour, 1/2 tsp. baking powder, 1/2 tsp. vanilla, 1/2 cup chopped nuts. Cream shortening and sugar together. Add water and eggs. Mix well. Sift together flour and baking powder and stir into first mixture. Add vanilla and nuts. Mix thoroughly and form into roll. Wrap in waxed paper. Place in refrigerator to chill. Slice thin and place on greased baking sheet. Bake at 375° F. for 10 to 12 minutes. Makes 3 1/2 dozen.

**Ceresota**  
Unbleached Naturally White  
**FLOUR**  
Look for valuable coupon with every bag

include—in addition to the standard Catholic classics—the latest works in Catholic philosophy, contemporary spiritual writings, art books, current fiction and biography. There will be a special section devoted to religious books for children.

"We are planning to hold periodic exhibits of works by outstanding Catholic artists and writers," Miss Polcyn concluded. "Whenever possible, contemporaries whose work is

on display will be present in person. And at all times, we will have on hand a selection of current Catholic magazines, for those who wish to buy—or just come in and browse."

St. Benet's is located one block from the Kendallworth station of the Chicago and North Western Railway and has ample parking facilities for those who drive. Refreshments will be served at Wednesday's opening, and each guest will be gifted with an appropriate memento.

## Plans To Be Altered For Emmons School To Get Lower Costs

Roy Nordstrom, Fox Lake contractor, and Carey Electric and Plumbing Co. will get the plumbing, heating, and wiring of the Emmons school addition, but the price will have to be shaved.

Nordstrom's \$50,000 bid must be reduced by \$3,000 and Irving Carey's total of \$14,465 must be lowered by \$1,600 or \$1,700, and this will be done, the board of education thinks by changing of the plans to permit economy.

Robert E. Duha, president of the board, said that the three members will study bids for a septic tank on which the bids ranged from \$2,445 to \$3,361, with the Loon Lake Plumbing company the apparent low bidder.

The bond issue was for \$70,000.

## Plan Queen Contest At Lake County Fair; Entry Deadline July 15

The deadline for entries in the county fair queen contest is midnight July 15. Charles Wilson, chairman of the judges committee announced Tuesday. All entries should be mailed to him at Radio Station WKRS, Waukegan.

Entrants are asked to submit their name, age, address, date of birth and telephone number and to send along a small photo of themselves. The contest will be held during the fair, July 26-29, in Grayslake.

Being single is one of the three requirements of girls entering the contest. They also must be no younger than 17 as of Dec. 31, 1956, and they must be residents of Lake or McHenry counties.

According to chairman of the judges Wilson, entrants will be judged on five basic points:

1. Personality and poise.
2. Dress. It will be non-formal until the finals; a bonus score will be given if the entrant wears a dress of her own creation.
3. Creative activities and a knowledge of current affairs.
4. Appearance in a bathing suit.
5. Cooking and home-making.

A total of 20 points will be possible in each of the five categories.

One unique thing about this contest was pointed out by Wilson. This is the first such beauty contest in which there is a special prerequisite for the judges—they are all bachelors.

## First Young People's Civil Defense Conference Is Scheduled by FCDA

In a further move to interest the young people of America in taking a more active role in Civil Defense, Federal Civil Defense Administrator Val Peterson, has invited 15 youths, all leaders of national organizations, to attend the first Young People's Civil Defense Conference July 12 and 13 in Battle Creek, Michigan.

Organizations represented include the National Student Council Association, New Homemakers of America, New Farmers of America, Future Farmers of America, YWCA, YMCA, Catholic youth organization, 4-H and YMW (Young Men and Women) Programs, Girl Scouts, Camp Fire Girls, Boys Clubs of America, and the National Society of the Children of the American Revolution. The youth leaders will be asked to evaluate and recommend civil defense programs suitable for their respective organizations.

The first day of the conference will be devoted to civil defense briefings and a tour of FCDA's Control Center and Communications center. During the second day the young people will discuss how civil defense activities can help their own organizations in meeting their goals and objectives.

## New Parochial School To Be Constructed at St. Bede's, Ingleside

A parochial school will be built in St. Bede Parish within the year, Samuel Cardinal Stritch, archbishop of Chicago, announced in Ingleside last Sunday.

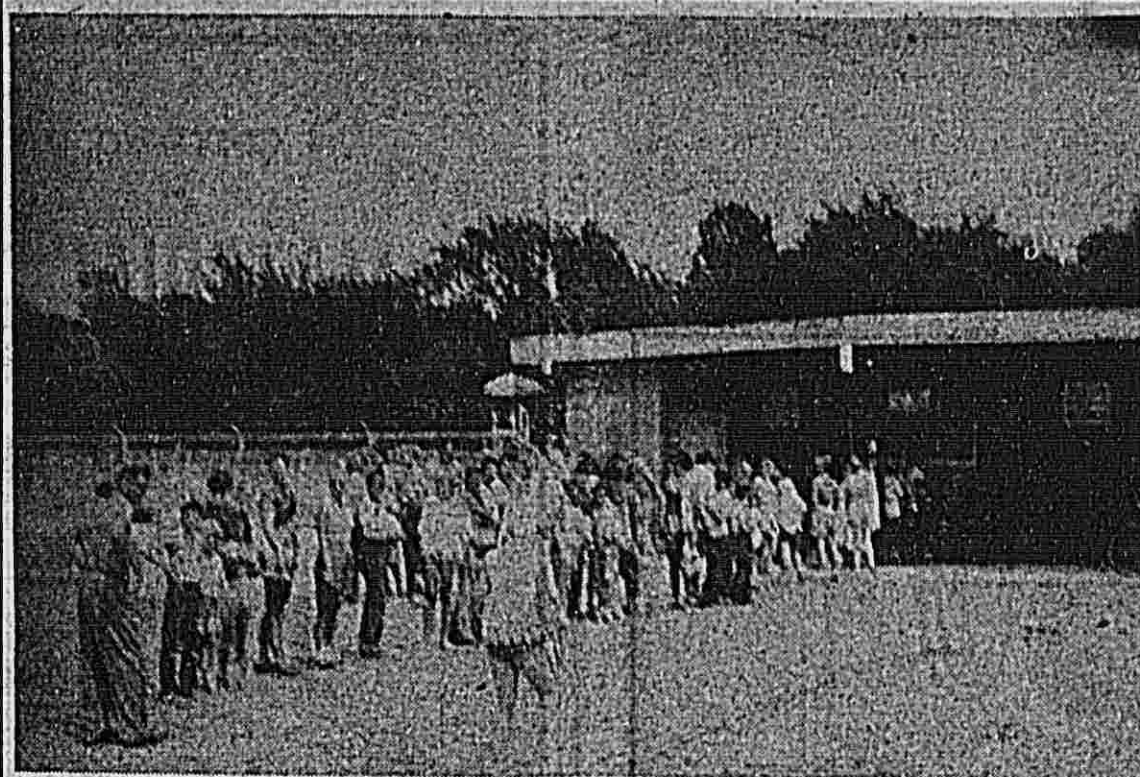

The announcement was made at a celebration of the 40th anniversary of the ordination of the Rev. John F. Coleman, priest in the St. Bede Church.

Over 300 parish members were present at the parish hall for an afternoon dinner, planned by Mrs. Thomas Walsh and Mrs. Katherine Graham. At this time church leaders recalled the service of the Rev. Mr. Coleman to his church.

High mass, with the uniformed Knights of Columbus serving as a guard of honor for the cardinal, was celebrated in the church at noon, just before the dinner.

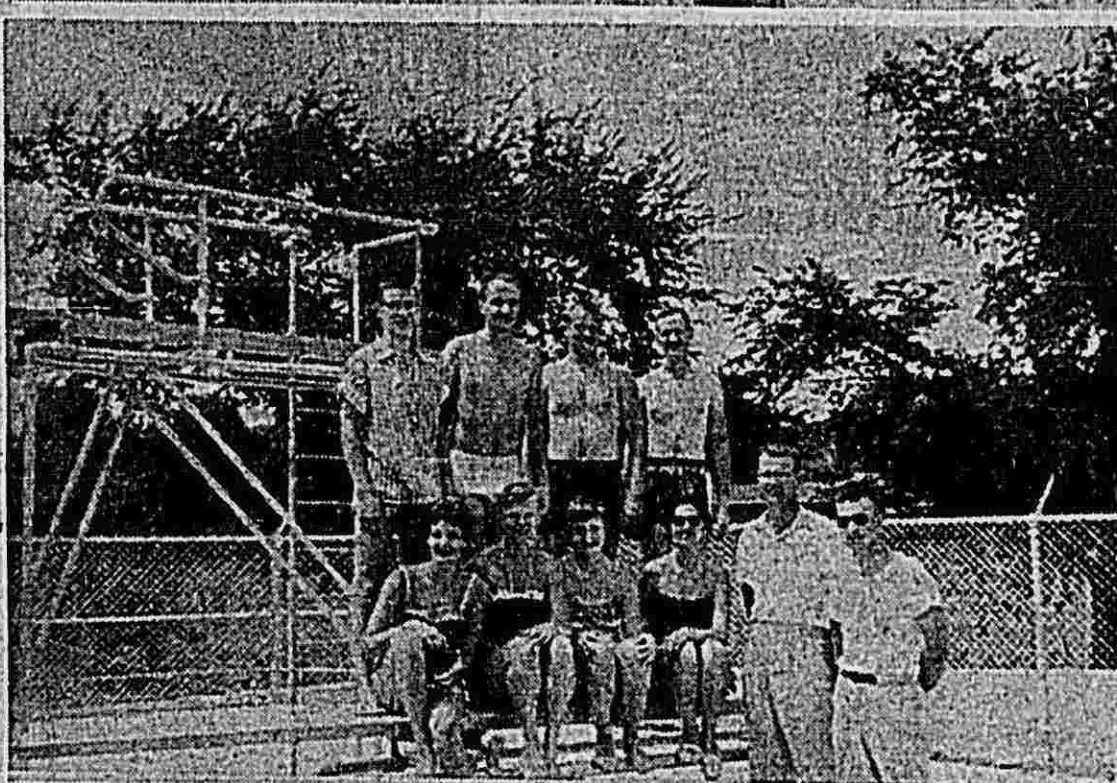

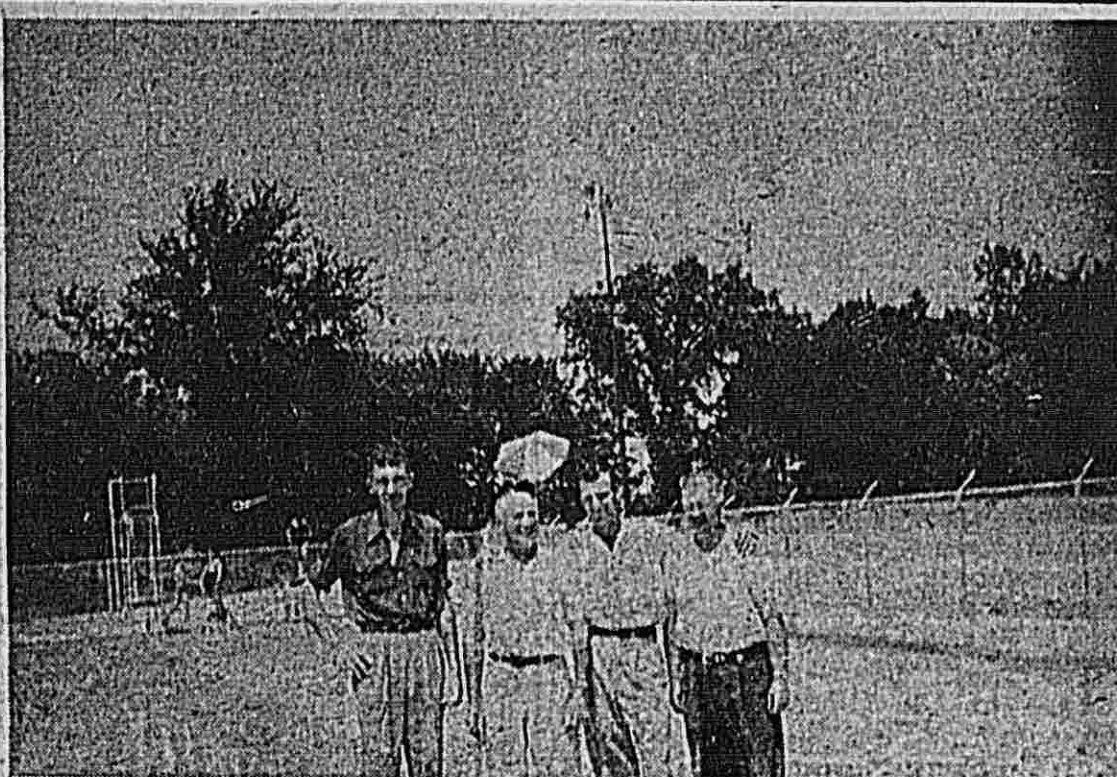

**Undergoes Major Surgery**  
Mrs. Edward Jahneke underwent major surgery on her back last Thursday and is a patient at the Illinois Institute of Research, Third Floor North, 912 South Wood St., in Chicago.

## Swimming Pool Well Patronized Sunday

Upper left—View of line-up of first patrons of the new Antioch Aquacenter, which opened its doors at 2 p. m. Sunday, July 1. An open house and inspection period from 12 noon until 2 p. m. saw hundreds of visitors inspect the new pool.

Lower left—Leons Club and committee members on hand for the opening of the pool. Left to right—front row—Dr. G. W. Jensen, chairman of the board; Wm. Brook, bond drive chairman; Ed. Kugel, C. R. Keulman. Back row—Ted C. Larson, Homer LaPlant, Howard Gaston, Irving Carey, and C. B. Olson.

Upper right—Viewing their handiwork are the contractors who built the new pool—Vernon Rogers (Carpentry); Homer LaPlant (Masonry); John Blackman, of Laursen and Blackman, (Cement and General); and Irving W. Carey, (Plumbing and Electrical).

Lower right—1. to r.—Lifeguards and managers of the pool are (bottom) Gwen Royer, Cathy Arndt, Maureen Smith, Pat Keulman, Warren Polley, manager, and Larry Leon, assistant manager. Top row—Roger Lang, Don Cardiff, Jack Gifford, Walter Shepard.

## Resorts Attract Large Crowds This Week; New Picnic Grounds, Beach at Pollock Lake

The closing of Chicago schools last week, warm weather and the holiday combined to send an unusually large number of vacationers to lakes near Antioch last Saturday.

While many returned to the city Sunday evening, most of the people remained for the Fourth.

Finding Antioch an excellent shopping center, the visitors came to town in large numbers and parking was crowded.

Cold weather in June limited the number of persons coming to the resorts, for only those with summer

homes braved the unseasonable weather.

Hot weather last Sunday followed by comfortable temperatures was just what was needed to bring the people to the resorts.

The Cedar Lake beaches were crowded Sunday and yesterday, and the new picnic and beach resort of George Rox at Pollock lake south of Hickory Corners on Rte. 45 has begun to attract people. It is the first resort on that lake having been built on the land that was formerly the Ravenscroft dairy farm.

## Business of Libertyville Federal Savings, Loan Much Larger Than 1955

Libertyville Federal Savings and Loan Assn. of Libertyville, Ill., report Monday that on June 30 it recorded savings of \$4,127,901 in contrast to \$2,534,851 on June 30, 1955. The increase was \$1,593,050, or 60 per cent.

A 33 per cent increase in first mortgages brought the total to \$3,177,473 on June 30, a difference of \$1,176,717 from the same date last year.

Reserves for June 30, 1955 were \$199,075; on June 30, 1956, they were \$245,498, an increase of \$46,423 or 23 per cent.

Assets on June 30, 1955 were \$3,476,882; on June 30, this year they were \$4,870,201, an increase of \$1,393,319, or 31 per cent.

## Salem to Have Dial Telephone System

The General Telephone Company of Wisconsin has petitioned the Public Service commission of that state, for permission to install a dial system in the Bristol, Salem, area. The area is presently served by a manual system with central offices at Bristol.

The company also asks that rates be adjusted to be in line with those of the Trevor, Silver Lake, Wilmot area. The hearing before the commission is set for July 16th, 1:30 p. m., at Madison, Wisconsin.

Avery Vose of Crawford rd. is a member of the board of the Milk Foundation which recently elected Arnie W. Agnew of Milton Junction, Wis., as president of the board. Agnew is president of Dist. 2 of the Pure Milk Ass'n.

## Neatest Stall and Pen Awards for 4-H'ers

The persons who visit the 4-H Club show enjoy seeing the animals (beef, dairy, hogs, sheep, goats, and horses) in neat, clean surroundings.

Judges will visit all livestock tents three or four times daily to see which 4-H'er keeps his animals clean, fed and watered, and comfortable during the show. Keep your area well marked, remove manure to designated places, keep walkways clear of equipment and feed, and display your ribbons. Be courteous and answer questions if asked.

A cash prize of \$3 will be given to the winning person with the neatest area in each of the above livestock projects.

Since no one will know who the judges are or when they will visit your tent, it is important to have your area in order at all times.

**Feet Facts**

*It's a Great Time  
to Buy a Buick*

Buick SPECIAL  
6-Passenger 2-Door Riviera

*(And at the Best Buy Yet!)*

WHAT'S IN IT for you—if you step out  
and buy yourself a 1956 Buick  
right now?

Well, first of all—the *time* is right.

Right now, your present car is at its  
peak worth.

And, with the whole summer and almost  
half of '56 still ahead of you, you'll get  
more enjoyment out of a spirited new  
Buick this year—if you buy now.

Second, there's the matter of how much  
more automobile your money buys in the  
best Buick yet.

We tell you flatly that nowhere but in a  
'56 Buick can you get so much bounty  
for so little booty.

For example, take the beautiful big '56  
Buick SPECIAL pictured here.

It's one big reason why Buick now ranks  
in the top three of America's best-selling  
cars. Yet, you'll find it priced right close  
to the well-known smaller cars.

That sure makes Buick a whale of a lot  
of car for the money. And look:

Nowhere but in a '56 Buick can you get  
the *absolute smoothness* and the electrify-  
ing performance of Buick's terrific new  
Variable Pitch Dynaflo.\*

Nowhere else can you get the obedient  
responsiveness of Buick's big and mighty  
new 322-cubic-inch V8 engine. Or  
Buick's matchless new handling ease and

ever-level ride buoyancy—or Buick's  
bold new sweep-ahead styling, and  
solidity of structure, and stretch-out  
roominess.

Add it all up and the answer comes out  
the same; any way you figure it: *Now's  
the time to buy your 1956 Buick.*

Will you come in—before another sun  
sets—and get set with your best buy yet?

\*New Advanced Variable Pitch Dynaflo is the only  
Dynaflo Buick builds today. It is standard on  
Roadmaster, Super and Century—optional at modest  
extra cost on the Special.

When better automobiles are built Buick will build them

## Lake Villa

Mrs. Fred Bartlett, Correspondent  
Tel. Ellet 6-4454

Mrs. H. Emerson and Mrs. Mable York from Ingleside were guests at the Blair Chapter O. E. S. Bunco was played and refreshments were served. All the proceeds went to the polio fund.

Mrs. H. Emerson, senior regent of the Moose lodge, was escorted to the East by Mrs. Jack Emerson in Milwaukee, Wis.

Mrs. H. Emerson and Dorothy Emerson spent the week end visiting their home town, Marinette, Wis.

There will be a public card party July 7, at 8 p. m. at the Millburn Masonic temple.

Mrs. H. Emerson, Mrs. Mable York and Mrs. R. Schulz did volunteer nursing at Downey.

On Tuesday, June 26 twenty-five members of the Lake Villa Woman's club and five guests enjoyed supper at the Shady Lane Farm in Marengo, Ill. They attended the play "Solid Gold Cadillac" at the Shady Lane play-house.

The next regular meeting of the Royal Neighbors Camp 480 will be at 8 p. m. Tuesday, July 10.

The Royal Neighbors will sponsor a public card party at 12:30 July 11 at the Lake Villa village hall.

Cards will be played and they will have a Salad Bar luncheon.

Mr. and Mrs. Raymond Mobile and family of Lake Bluff were dinner guests at the Bernard Schneider home on Friday.

Linda Lee Ladwig celebrated her ninth birthday Friday, June 29. Linda Mobile of Lake Bluff was an out of town guest.

Mrs. Fred Bartlett spent Friday visiting friends in Waukegan. Sheridan Burnette was a dinner guest at the home of his daughter, Mrs. Jake Fish.

There will be a salad bar luncheon and card party given by the W. S. C. S. of the Lake Villa Community church at 12:30 on July 25, at the Lake Villa school gym. All popular card games will be played.

The 1956 Illinois State Fair croquet contest, August 10-19, will feature special divisions for work entered by men, teen-age girls and ladies over 65.

## ROSE QUEEN

Pretty Polly Daly, former 4-H Club Rose Queen of the Rose Festival at Newark, New York, the Rose Capital of America, stands among some of the 36,000 rose plants in the world famous Jackson & Perkins 17-acre public rose garden where the silver anniversary of the Rose Festival will be celebrated June 16-July 4.

## THE VANISHING COWBOY

(An original poem by a sub-teenager who watches the Westerns on TV.)  
The vanishing cowboy shall never be gone.  
He works like a beaver, he gets up at dawn.  
The alarm clocks ring around four  
And you hear him stagger up to the door.  
He drags himself out into space;  
He yawns in his tired friend's face.

A few seconds later he picks up his pace.  
He saddles his nag; and rides out to see  
If anybody's out except he.  
No one's there; he thinks about bed;  
His horse bucks, he nearly lands on his head.  
He rides up to the corral  
He stops his horse "Whoa Pal!"  
He ties his rope on the horn by the matle.  
And rides up to drive the cattle.

He yells and hollers to try to stay awake.  
He soon calms down; here he makes his mistake.  
He did go to sleep, and once more he began to snore.  
The vanishing cowboy works hard, that is true,  
But one thing you never knew  
He gets up at noon, too.  
(Sometimes)  
\*Poetic license applied for.

Make wall washing easier by soldering a partition in a galvanized pail, dividing it into equal parts. When cleaning, put hot, sudsy water into one side, and warm, rinsing water in the other. It saves many trips up and down a ladder.

"Hello, Stumpy. Are you fishin'?"  
"Ol' Sam asked me the other day, 'Nope,' I said. 'Just drownin' worms!'"

## Three New Public Access Areas to Be Built On Fox Chain O'Lakes in Antioch Township By Illinois Department of Conservation

Site on 173 Near Bridge  
Good for Boat Harbor and  
Picnic Lot With Parking

### State Negotiating for Sites On East Side of the Several Lakes

Springfield, Ill.—Work will be started within 30 days on three new free public access areas on the Fox Chain O' Lakes, it was announced here today by Director Glen D. Palmer of the Illinois Department of Conservation.

The three boat landing, parking and picnic areas are the beginning of a public access program which Palmer said will be extended to all parts of the state as fast as suitable sites can be obtained and funds provided for construction.

The Chain O' Lakes areas are located on the east side of Fox river immediately south of Route 173; on the Chain O' Lakes State Park and public hunting area west of Grass lake with access into Fox river and the lake; and on department property between Dunn's lake and Nippersink lake just east of the Lake Geneva highway, or Country Club road north out of the village of Fox Lake.

Seek Sites on East Shore  
Negotiations are under way, Palmer said, for access sites on the eastern side of the lakes.

Launching of the construction program is the culmination of several years of surveys, investigations and negotiations by the department engineers and biologists.

"We have recognized the urgent need for these areas, and several more which we hope to get very soon," Director Palmer declared. "There have been many obstacles in the way of the program, but we are ready to go to work now."

One Near Fox River Bridge  
The site along Route 173 which crosses Fox river west of Antioch is ideal for a boat harbor, picnic lot and parking area. Much of the ground is wooded and the terrain is suited to building a low level boat dock and ramp. Water and sanitary facilities are included in the plans as well as an all-weather parking lot for cars and boat trailers. There will be no charge for use of the area.

The Turner lake site is located on the Chain O' Lakes State Park and public hunting property adjacent to the Rose Gerbracht harbor. This is another ideal location but will necessitate dredging of a channel and boat harbor connected with Fox river just above its entrance into Grass lake. There is excellent fishing, both in the river and lake. Sanitary and water facilities will be provided here, along with a modern parking lot and picnic area. This also will be free for public use.

New Road Necessary  
The Dunn's lake-Nippersink site will require building of a short access road off the blacktop which connects with the Grass lake road, and there will have to be some dredging here, also, both for a boat harbor and access to the Nippersink channel. Parking lots and picnic facilities as well as water and sanitary accommodations will be provided. There will be no charge for use of this area.

Palmer explained that all of the boat landings in these and other proposed areas will be more than four feet above normal lake level so that there will be no hardships for boat owners to get their craft into and out of the water. He pointed out that hilly ground such as exists at the former Lake Villa school area which was sold last week is not adaptable to public use for boat landings.

## County Board Rejects Plans to Consolidate Browe-Newport Dist.

The Lake County Board of School Trustees Monday evening denied a joint petition asking the union of Newport Consolidated and Browe school districts.

The board previously had approved the petition, but a decision given later by Judge Bernard M. Decker of the Circuit court on an appeal held that the hearing on the matter by the trustees was faulty and ordered the case back to the board with instructions on procedure.

James R. Paxton Sr., new president of the board, said the petition was denied on the basis that both school boards now oppose annexation. A straw vote in the Browe district taken last week opposed annexation by a substantial majority. Robert Wilton, Antioch merchant, is a member of the county Board of School Trustees.

## HEALTH TALK

Have you done your part in your community to eliminate the killer known as the tubercle bacillus? Have you had a chest x-ray to be sure that your lungs are free from the shadows that suggest the dread disease tuberculosis? With the cause and cure known for this condition, the only obstacle in complete eradication is locating the affected persons and placing them under medical supervision, the Educational Committee of the Illinois State Medical Society points out in Health Talk.

Tuberculosis is a germ disease. Caused by the tubercle bacillus, it invades the system slowly, destroying the tissue. Heredity is not a factor. It seems to attack the person whose body resistance is low, a state brought on by fatigue, inadequate food, improper rest, and late hours.

Initially tuberculosis may not produce noticeable symptoms, but as the disease progresses there is a general effect of wasting away. Although usually considered a disease of the lungs, tuberculosis may also attack the bones, the glands, the coverings of the brain, the eyes, the skin and the kidneys.

Early detection is important, because then the patient may not have to alter his living habits noticeably, nor be removed from his family. Under the supervision of a physician, his living habits will become more temperate and more rest each day will be in order.

On the other hand, the person with advanced tuberculosis may have to spend months or years in a sanatorium, or may die of it.

New drugs are constantly employed to help in the combat against tuberculosis, but continual research and experimentation are needed to establish their efficacy and dependability.

When the germ gets into the body it may remain quiet without causing much trouble for a long period of time. In fact, if not too many germs have entered the body and if the general health and state of nutrition remain good, these bacilli may be prevented from spreading and growing by the health of the body itself.

The first step in the prevention of tuberculosis is the maintenance of one's good health, not only by regular physical examinations by the family physician, but adherence to regulations governing balanced mental and physical activity.

Because early detection is important, the wise person will have an x-ray film taken of his chest periodically. A tuberculin test should also be taken. In this procedure, a small amount of material called tuberculin is applied to the skin or, in some cases injected beneath the skin. If the test is positive, it does not mean necessarily that the disease exists. It does show that at some time in the past tubercle bacilli have entered the body.

Because tuberculosis can still be a killer, don't hesitate to have a chest x-ray. By eliminating yourself as a victim, you are strengthening the pattern of good health for your family and for your community.

## Grayslake Wins 14-10 Over Antioch Jr. A-L

Antioch's Junior American Legion team lost to Grayslake 14 to 10 Monday night bringing the season record to two victories and three losses with one tie to be replayed.

Grayslake has been able to beat Antioch twice this season, taking the opener 12 to 2. On the other hand, Antioch has trounced Grayslake 8 to 4 and 14 to 1.

With Zion, the other team in the 4-team league, Antioch drew a 10 to 10 tie last week, and lost an earlier game 4 to 2, after having led 2 to 0 up to the last inning. A home run with the bases filled gave Zion the victory.

After trailing in the Grayslake game Monday 4 to 14, Antioch staged a last inning rally, scoring six runs, which was short of a tie or victory. The score by innings:

Grayslake	3	4	6	1	0	14
Antioch	2	0	2	0	6	10

Batteries: Antioch—Mack, Madden, Deppe, and Jonas; Grayslake, Hanson and Hunsinger.

Antioch has been short of players, barely able through the use of relief pitchers to field nine men each game. The team comprises Richard Jonas, catcher; Ray Temy, first base; Charles Larson, second base; Tom Gudgeon, centerfield; Harold Andresen, right field; Ron Christensen, shortstop; Edward Mack, Ronald Madden, and Earl

## Tigers Win Three Games in a Row

As the Little League goes into the final week of the first round of play the Giants have moved into first place by a few percentage points. The Yanks and Tigers are close behind them. The Tigers won three games last week, beating the Dodgers Wednesday, the Cubs Friday and the Yankees on Sunday.

Hogan, pitching for the Tigers Sunday, had a no hit game going against the Yanks up to the sixth inning. Henry Lundblad of the Yanks spoiled the no hitter with a home run in the sixth inning. Fardon bought Hogan and the Yanks used Brown, Good, Wemiger and Lundblad on the mound and Enis behind the plate. The Tigers won 9 to 1.

The Giants beat the Sox in a thriller Sunday, where they broke a 5 to 5 tie in the last half of the sixth to go ahead 6 to 5. Osga and Furlan were the batteries for the Giants. The Sox used Carter and Schreck on the mound and "Snakes" Lamont behind the plate. The Giants still have three games to make up in addition to the game scheduled for next week.

If the Yankees win their next game the Giants will have to win all four games to win the first round championship. The standings as of Sunday, July 1, were as follows:

Team	Sponsor	W	L	Pct.
Giants (Ant. Lumber)		3	1	.750
Yankees (Nat'l Bank)		5	2	.714
Tigers (State Bank)		4	3	.571
Dodgers (L. V. Drugs)		2	2	.500
Cubs (Ant. Servicenter)		2	3	.400
Sox (Dupre Heating)		0	5	.000

The games scheduled for this week are:

July 5, Thursday, 6:30 p. m., Sox vs. Dodgers.  
July 6, Friday, 6:30 p. m., Cubs vs. Giants.  
July 8, Sunday, 1:00 p. m., Cubs vs. Yankees.

Deppe, alternating at pitcher, third base, and left field. Reserves are James Scully and J. Mikia. Edward Frazier is the coach-score keeper.

Two home games and three games away are left on the schedule.

## Clothing Made From Corn Industrial Miracle

Clothing made from corn and other industrial "miracles" are described in an article on new uses for farm crops appearing in the July IAA Record.

The official monthly publication of the Illinois Agricultural Association, statewide Farm Bureau group, points out that more than eight percent of our total corn production is used by industry each year.

"If this amount could be doubled, we could rid ourselves of the current corn surplus in three years," according to the article.

The second article in a two-part series on new uses also tells how ground corn cobs are now being used to clean aircraft engines and electric motors. A mixture of ground cobs and rice hulls is used with high pressure air-blast equipment to clean the engine parts.

A fiber from corn protein is called Vicara, and is used in blends with wool, cotton, and other fibers.

"Vicara is an extremely soft fiber, much like the imported and far more expensive cashmere. It absorbs dye easily and is washable," The Record states. "Vicara also absorbs perspiration, again like wool, and is therefore a much more comfortable fiber than many other synthetics."

Vicara does not replace domestic wool, according to a knitting company representative quoted by the magazine. "We can only use a fine grade imported wool in quality knitwear, so Vicara substitutes for imported wool or cashmere," the industry representative reported.

Both the corn fiber and the meth-

od for cleaning engine parts with ground cobs were the result of research by the United States Department of Agriculture in its regional laboratory in Peoria.

"Who can foretell how much market expansion will result from new uses science can uncover?" the publication asks.

"Three-quarters of our annual soybean crop goes into industrial use, and the excellent market situation for this crop is almost entirely the result of research that discovered new uses for the crop."

## Clang Clang of Streetcars Fading Into Oblivion

WASHINGTON—The death knell of the streetcar sounds more like a clink than a clang, clang, hardly heard above the roar of the buses and automobiles that are replacing them. Yet almost every month another trolley somewhere in the United States runs its last ride into oblivion.

Such cities as Detroit, Cleveland, Dallas, Atlanta, and Minneapolis have eliminated streetcar service in recent months. New York City, which retired most of its surface lines in 1947, will have but one left — over Queensboro Bridge — next fall when the last two in Brooklyn are withdrawn.

Among the 15 cities which still retain trolleys, scarcely one has not put away a sizeable number, or considered doing so. Trackage, which ran to 40,500 miles thirty years ago, has shrunk to 8,700 miles. Cars in use have dwindled from 62,800 to fewer than 6,000.

Diehard "railfans" are coming to the rescue for the old and discarded trolleys, and have instituted one of the nation's newest hobbies: collecting streetcars. Banding into groups, "railfans" buy or receive as gifts specimens of various vintage from all over the nation. They restore and repair them, and exhibit them to the public.

Near New Haven, Connecticut, members of the Branford Electric Railway Association maintain an outdoor trolley museum with two miles of track. Here visitors can ride a 15-bench "breezer" which recalls the day when transportation was recreation and bowler-topped dandies took their Gibson girls to Sunday picnics in open-sided, bunting-draped trolleys.

Londoners, singing "Auld Lang Syne," ran the last of their trams into the bar in 1952. Other Europeans still cling to their cars—among them, the Viennese, who bought 45 of New York's moth-balled fleet.

## Question: How Hot Is Hot Water?

NEW YORK — How hot is hot water?

No, this isn't a trick question like, "How high is up?" The answer is: It all depends on what you're using it for.

To the house cleaner, hot water is properly hot at 140-150 degrees.

That's enough to kill germs and leaves everything it touches hygienic as well as sparkling-spotless.

But those temperatures would parboil a bather. Hot water in the bathtub or shower is just-right hot when it's between 95 and 110 degrees. Anything less than that would result in more goose pimples than cleanliness.

The laundry is a veritable hot-bed of hot water, what with dye-fast cotton clothes asking for 120 to 150 degrees worth of hotness, and more delicate fabrics such as woolsens or silks calling "hot" 90 to 105 degrees.

The Gas Appliance Manufacturers Association points out that such varying degrees of hotness are no problem at all to owners of automatic gas water heaters. Not only is a steady flow of hot water assured all day long, but most models are equipped with hand-set thermostats that allow you to dial any hotness you need as easily as making a phone call.

## Age Is Now Lesser Factor in Operations

CHICAGO—A comparison of records for the last decade with those of 20 years ago shows the falsity of the adage "the older the person, the greater is the operative risk," according to two St. Louis physicians.

Drs. Carl A. Moyer and J. Albert Key found that for many operations the risks now are the same for persons over 60 years as for persons under 60. Survival rates for all ages have increased greatly in the last decade and especially for the older group.

One reason for the change is improved treatment of postoperative infection through the use of antibiotics. This is particularly true for cholecystectomy (removal of the gallbladder) and appendectomy, which used to have high death rates because of infection. The outlook is now about as good as for young patients.

## National Parks Expect Record Attendance

WASHINGTON — Nature's wonderland of scenery in the national parks is expected to lure a record-breaking number of travelers—at least 53,000,000 this year.

Termed "irreplaceable national treasures" by President Eisenhower, the parks attract ever-increasing numbers: 380,000 in 1916, more than 20,000,000 in 1941 and about 50,000,000 in 1955.

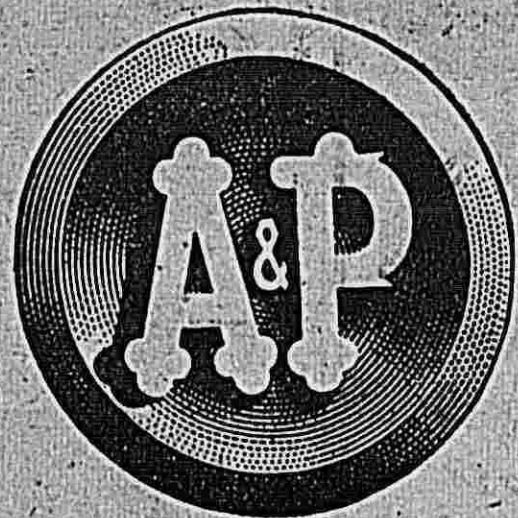

Conrad L. Wirth, director of the National Park Service, foresees 80,000,000 visitors a year by 1968.

## You Color Blind? Many Eye Defects Worse for Driver

NEW YORK—Drivers with "tunnel vision" or those slow to recover from the temporary blindness caused by a blaze of oncoming headlights are a much greater danger on the highway than color-blind motorists.

So reports Leonard M. van Noppen, who supervises a passenger car fleet that travels 30,000,000 miles annually for a big auto finance company. He warns that at this time of the year particularly—when twilight, with its extra deceptions, lasts longer—defective eyesight is one of the major dangers to motorists.

Van Noppen, vice president of Universal C. I. T. Credit Corporation, reports that optometrists have found that color-blindness is not particularly hazardous, judging by accident statistics. Color-blind motorists, he says, are able to distinguish between signal lights by the difference in brightness between red and green (red appears brighter).

Eyesight defects that are especially dangerous, he reports, are inability to see distant objects clearly; tunnel vision, or the inability to see over a wide area or "catch glimpses" of things on either side while watching the road (warning signs are next to useless); inability to judge distances (especially vital when passing other cars on the road); and faulty night vision, which means the driver cannot see against moderate glare or when there is little light, and does not recover speedily enough from headlight blindness.

## Many U. S. Women Widowed by Age 55

NEW YORK—Despite increased postponement of widowhood to the older ages as a result of the declining mortality prior to mid-life, last year 115,000 wives were widowed in the United States through the death of a husband less than 55 years of age.

At the time of the last census there were, in all, 700,000 white widows in the United States who had lost their husband within the preceding decade, and who were under 50 years old at the time of their loss. Of these, almost one-third had been widowed two to four years, and one-half for five to nine years.

These facts emerge from a study of young widows and their dependents based upon 1950 census data: Four-fifths of the widows under 50 years of age had borne children and many of these children were quite young—about 80,000 were under age five. Nearly three out of every five of the widows still in their early twenties had responsibilities for preschool children.

## Tornado Toll Heavy Over Ten-Year Span

NEW YORK—Tornadoes in the United States took 1,766 lives during the decade 1946 through 1955, and inflicted injuries on approximately ten times that many persons, according to the Metropolitan Life Insurance Company's statisticians.

During the ten year period the loss of life varied considerably from year to year. Over the past 40 years, however, there has been a general tendency for the fatality toll to decrease from one decade to the next—the 1916-20 toll being 3,114, the 1925-35 figure 2,138, and the 1936-45 figure 1,896.

May was the peak month for tornadoes during the past decade, accounting for nearly one-fourth of the deaths.

The heaviest death toll from tornadoes in the United States during the decade just ended resulted from the series of tornadoes which swept through the Missouri Valley States on the weekend of March 22, 1952, taking 208 lives.

## Cousins Can Marry, Consultant Believes

CHICAGO—A medical consultant has contradicted the notion that all cousins who marry will have defective children.

In a query to the Journal of the American Medical Association, a physician asked if it would be wise for a girl to marry her second cousin—the grandson of her father's brother.

The unnamed consultant said that it would be all right—if the ancestry on both sides for three generations was sound physically, intellectually and emotionally.

## Smoke and Fire

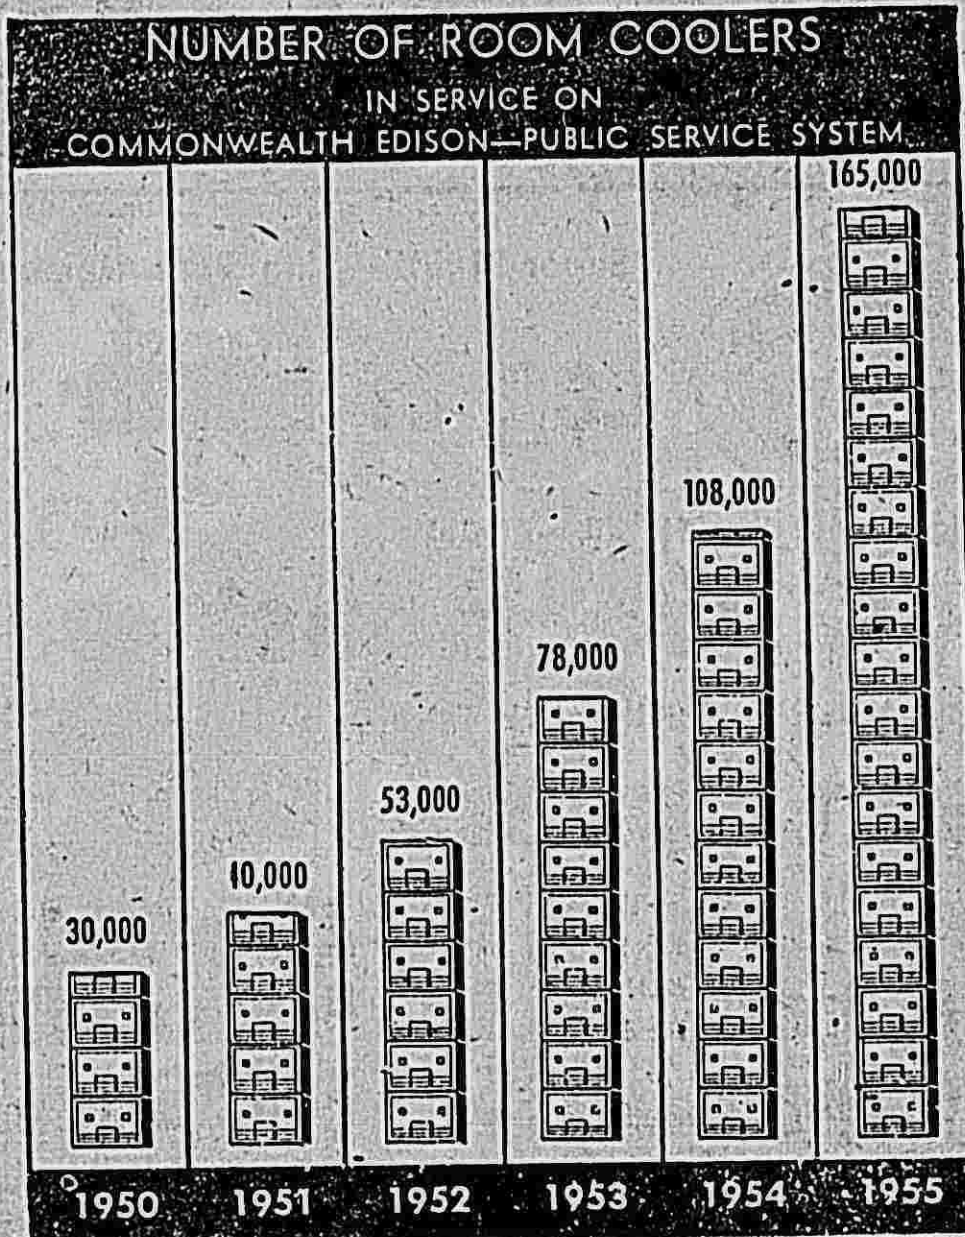

RICHMOND, Va., — Lt. J. B. Williams of the Richmond Fire Department was knocking on residential doors during a routine inspection.

At one door, Williams got a whiff of smoke when the occupant opened it to his knock. Engine Company 11 quickly put out the fire in a chair the occupant had been sitting in.

## America's Sweetheart Meets "Marty"

Following the 50th Anniversary ceremonies of the Kellogg Company of Battle Creek, Mich., Miss Anita Miller, named "Sweetheart of the Corn" in honor of the celebration, was flown to Hollywood where she appeared on the Art Linkletter coast-to-coast TV show and was feasted by famous personalities in the amusement world. Here she is pictured in the Brown Derby in Hollywood with Academy Award Winner Ernest Borgnine, star of "Marty".

### 4-H Photography Course in Last Session

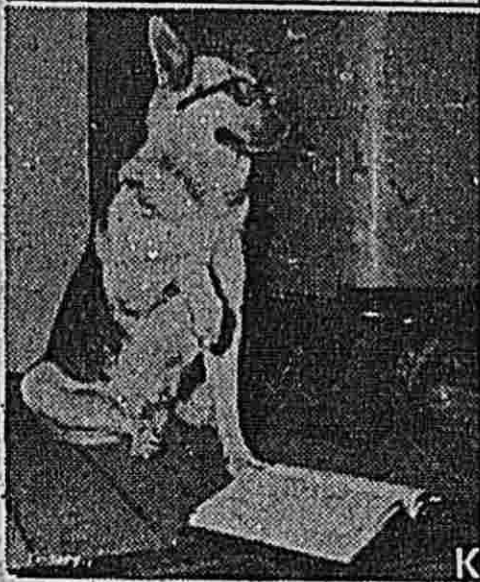

The last in a series of meetings for 4-H club members enrolled in the 4-H Photography project will be held on Thursday evening, July 5th, according to an announcement by Farm Adviser Ray T. Nicholas, who is conducting the course.

At this last session the 4-H club members will see a demonstration on the making of enlargements and will make enlarged pictures from negatives brought to the meeting.

There are 28 members enrolled in the 4-H Photography project. In completing their project, they must make an exhibit of the following subjects at the County 4-H Club show: Picture of your home, picture of a member of your family, landscape scene, marine scene, picture of your project or activity, indoor picture, series of four pictures that tell a story.

Visitors to the county fair and 4-H Club show will have an opportunity to see the results of these amateur photographers' efforts and talent, says Farm Adviser Nicholas.

### Dog-gone Good Story

Rin Tin Tin, star of "The Adventures of Rin Tin Tin", on ABC-TV, puts on his reading glasses before looking over a new shooting script calling for him to fight renegade Indians, save ambushed wagon trains and generally defend Fort Apache. Rin's high audience rating and popularity stand to make him even more money than his movie-idol grandfather.

#### Slim Summer

Being overweight is no joke at any time, but it can be particularly uncomfortable — as well as embarrassing — in the summertime. Excess pounds can turn hot weather into torture, get in the way of summer sports, and make the heavy person reluctant to appear in a bathing suit.

Thus, spring is the time of year when reducing diets begin to blossom out in newspapers and magazines. Diets undertaken on a doctor's advice are helpful, for calorie-counting can be very effective in helping the overweight to get back into shape.

But maintaining sound nutrition is also essential. Patients who are eating less must be careful to continue taking in proper amounts of the essential vitamins and minerals — for loss of weight plus malnutrition can be a dangerous combination.

It is for this reason that weight-reducing aids such as Am-Plus, often prescribed by doctors to help the patient say "No" to second helpings, do much more than just depress the appetite. Am-Plus, for instance, supplies 11 important minerals and eight essential vitamins — all in the same capsule.

Such compounds safely control the nagging, day-in-and-day-out hunger for food, and satisfy the hidden tissue hunger for essential vitamins and minerals.

It is the same principle used at the famed Mayo Clinic, where obesity is treated by diet restriction, but all reducing diets providing less than 1500 calories contain a vitamin supplement.

EASA-MATIC  
takes the "hard pull"  
out of starting!

Eas-A-Matic starting—now on five new Evinrude models from 3 to 15 hp—magically takes the "hard pull" out of starting... actually cuts starting effort as much as 40%! Eas-A-Matic rhythmically balances starting effort by increasing leverage during compression, and decreasing it between compression peaks. It creates a balanced easy pull you'll fully enjoy. See... and try it now!

### ADJUDICATION AND CLAIM DAY NOTICE

**NOTICE IS HEREBY GIVEN** to all persons that the first Monday of August, 1956, is the claim date in the estate of FRANCES L. OLIVER, Deceased pending in the Probate Court of Lake County, Illinois, and that claims may be filed against the said estate on or before said date without issuance of summons. All claims filed against said estate on or before said date and not contested, will be adjudicated on the first Tuesday after the first Monday of the next succeeding month at 10 a. m.

**William E. Brook, Executor**  
**Clinton O. Thompson**  
 Attorney (July 5-12-19, '56)  
 Antioch, Ill.

**Card of Thanks**  
 My sincere appreciation to my many friends and neighbors during my convalescence and for helping to make it endurable at my home at Lake Marie.

**County Zoning Notice**  
 STATE OF ILLINOIS)  
 COUNTY OF LAKE )  
 TO WHOM IT MAY CONCERN:

**PUBLIC NOTICE** is hereby given to all persons in the Town of Antioch, Lake County, Illinois, that a public hearing will be held on July 24, 1956, at 1:30 p. m., in the Village

Hall, Antioch, Illinois, relative to a proposal to vary the terms of the Lake County Zoning Ordinance, or to reclassify by amendment thereto, from the F-Farming District, to the B-2 Business District, the following described real estate, to-wit:

That part of the Southeast quarter of the Southwest quarter of Section 13, Township 46 North, Range 10, East of the 3rd P.M., described as follows, to-wit: Commencing at the Southwest corner of the said quarter section and running thence North along the West line of the said quarter section 664.16 feet to place of beginning; thence East parallel to the South line of said quarter section, 591.27 feet more or less to the center line of U. S. Route 45; thence Southerly, along the center of U. S. 45, a distance of 188.25 feet more or less, to a point on the said center line which is 408.04 feet North of the South line of said quarter section (measured along a line parallel to the West line of the said quarter section); thence West, parallel to the South line of the said quarter section, a distance of 617.94 feet more or less, to a point in the West line of the said quarter section; thence North along the West line of the said quarter section, 166.12 feet to the place of beginning in Lake County, Illinois. As a result of the petition of LOUIS L. BEHM, the fee owner, and GEORGE KOVACEVICH and CLARA KOVACEVICH, his wife, which petition is on file and available for examination in the office of the below named Board, Court House, Waukegan, Illinois.

All persons interested are invited to attend said hearing and be heard. **LAKE COUNTY ZONING BOARD OF APPEALS**  
**EARL H. KANE, Chairman**  
 Dated at Waukegan, Illinois, this 5th day of July, 1956.

## Legal Notice

### PUBLIC NOTICE

**Notice of Proposed Change in Gas Schedule**  
**NORTHERN ILLINOIS GAS COMPANY** hereby gives notice to the public that it has filed with the Illinois Commerce Commission on June 29, 1956, the following proposed changes in its Rate Schedule G:

1. The list of incorporated communities covered by the Schedule is brought up-to-date.
2. Provision is made for supplying natural gas to residential and commercial customers for the operation of dual-fuel space heating equipment.
3. The restrictions on uses of gas under Rate 7 (37), Industrial Volume Gas Service—Off-Peak, and Rate 8 (38), Industrial Gas Service, are liberalized.
4. Gross charges for large-volume industrial use are reduced, with no change in net charges.
5. The application of the adjustment for cost of purchased gas is modified with no change in the total charge to any customer.
6. Certain minor changes are made for purposes of clarification and standardization.

Further information with respect thereto may be obtained either directly from this Company or by addressing the Secretary of the Illinois Commerce Commission at Springfield, Illinois.

A copy of the proposed change in the schedule may be inspected by any interested party at any business office of this Company.

**NORTHERN ILLINOIS GAS COMPANY**  
 By: W. J. Crowley, Vice-President

### OUT ON A LIMB

By Stumpy McCulloch

"Zekel! Old Ezzy said to his hired hand. 'Run down to the junction and find out what time it is!'"

"All right," Zekel said, "but I ain't got a watch. Will you lend me one?"

"Watch! Watch!" snapped Old Ezzy. "What d'ye need a watch fer? Write it down on a piece of paper!"

Out West nowadays, they're brandin' logs like cattle. Yep, that's right. The logs that float into Puget Sound carry the brand of their owners, so's they won't get lost or stolen. It used to be that lots of logs floated into the Sound and out to sea. And since some logs were worth as much as \$500 apiece, many were lost to tree pirates! So the laws were changed—in Oregon, Washington and British Columbia—and today every log has to be branded, and nobody has the right to remove or alter that brand. I reckon the day of the log rustler, as well as the cattle rustler, is gone forever!

I figure it pays a feller to decide where his woods road should go before he starts cuttin'. Usually it ought to run near the thickest timber, and where a truck can go with the least expense. It's also a good idea to reserve some stands of trees in dry, well-drained areas for winter and bad-weather cutting and hauling.

In the woods, a feller ought to be as careful as he can. For instance, when he's bucking—that's when you cut a tree into logs or sections—he ought to buck uphill from his previously bucked logs. And he ought to give plenty of warning to other fellers in the area of any log that may have a tendency to roll after it's been bucked!

As for his power saw, he ought to fill the gas tank only on bare mineral ground, then move to a clean spot before he starts it. And he ought to shut off the motor when he's carryin' it from one place to another, and also when the tree starts to fall. These are good safety rules to follow, I've found!

"Well, how is it?" the plumber asked, when he arrived late.

"Not bad," the husband said. "While we was waitin' for you, I taught my wife how to swim!"

See you soon!

## Men Who Make America Great

**EDWARD HERMAN LITTLE**

In 1902, he joined Colgate & Company as a salesman in North and South Carolina.

In 1919, after serving in a series of increasingly important positions, Little's spectacular rise in the soap industry began when he was appointed New York District Manager, the Company's largest territory.

He was made head of foreign sales in 1926. His progressive policies built up foreign markets into what is today Colgate-Palmolive International, selling in over 100 foreign countries in the free world.

In 1938, Little became President, and in 1953 was appointed Chairman of the Board. For the past 18 years, he has been the firm's Chief Executive Officer.

Under his leadership, the organization has seen its greatest growth and, of even more importance to Little, revolutionary new products have been placed on the market contributing to America's emergence as the cleanest, healthiest country in the world.

### Behind-the-Wheel

#### Driver Training

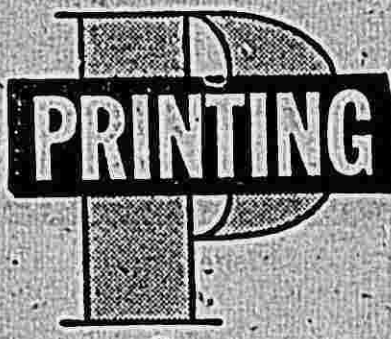

Behind-the-wheel driver training in Illinois and Indiana high schools has qualified another 33,179 students to operate automobiles, according to Chas. M. Hayes, president of the Chicago Motor Club.

Having completed extensive driver training courses during the 1955-56 school year, they join about 150,000 other youngsters who have taken similar courses since the program was inaugurated in 1946 by the Motor Club.

Four hundred and two schools in Illinois and Indiana now offer students driver training.

Vernon L. Nickell, state superintendent of public instruction in Illinois, said driver training in Illinois high schools is developing safer drivers among young people.

Surveys disclose that this training is a deterrent to traffic accidents. Students trained in high school

**ANY QUANTITY  
BEST QUALITY**  
The Antioch News

driving courses have only half as many accidents as their untrained schoolmates, figures show.

Statistics reveal that in 1955 drivers under 25 years of age were involved in 27.1 per cent of the fatal accidents. Yet, this group constitutes only 15 per cent of all licensed drivers.

Hayes estimates that the cost of

training a student in driving techniques is less than the repair bill of a single wrinkled fender. The cost includes that of operating specially equipped automobiles loaned to schools by manufacturers and dealers, salaries of trained instructors, and the cost of textbooks, testing devices and special equipment.

Some 6,000 high schools in the

United States now provide complete driver training courses, including behind-the-wheel practice. Another 2,500 high schools provide classroom work only.

Besides saving millions of dollars, the driver training program is credited with preventing hundreds of deaths and thousands of injuries each year.

## happy vacations begin in a Chevy

You'll love to travel in it, because it loves to travel! When you get this Chevrolet out on the road, you'll want to keep going—and so will the whole family.

America's largest selling car—2 million more owners than any other make.

Of course, even in a Chevrolet the happiest vacations may involve one or two minor problems. Like fidgety small fry who want gallons of water and keep asking if you're almost there. The big things, though, are beautifully taken care of by this roomy Chevrolet's smooth and easy way of going. That's for sure.

The fact is, few cars at any price hold the road with Chevy's grace, with its solid feeling of stability. And with horsepower up to 225, Chevrolet moves out like a whiplash, for safer passing. It's no wonder that so many people who used to buy higher priced cars are changing to Chevrolet! Stop by soon for a ride.

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. LET US DEMONSTRATE!

## College Graduate's Outlook Said Quite Promising

MINNEAPOLIS—Fantastic 1956 demand for engineering graduates hampered spring classroom sessions, lured away sorely needed technical instructors, and resulted in sharp practices by some recruiters. It boosted starting salaries considerably higher than earlier spring estimates—“unhealthily high” in the opinion of some placement officials, so high it has disturbed morale of already employed grads of previous years, whose advancement schedules have not kept pace.

The pleasantest light in this spring's graduate employment picture is the sun shining on the liberal arts man at long last, according to the family economics bureau of a leading national insurance company.

In the final report on its 21 annual survey of college placements, with salary tabulations pretty well completed, average base starting pay for newly “minted” engineers is reported at around \$420 at some technical schools, and as high as \$450 at a few, compared with \$390-\$410 a year ago. Premiums for working schedules beyond 40 hours, graduate study assistance, free furniture moving for married grads, etc. bring actual pay offers considerably higher.

Women who majored in science or math have been in heavy demand as engineering assistants, physicists, even as well spotters and map drafters. Women liberal arts majors are being inducted into regular management training classes formerly limited to men, and career appointments in government.

## Death Rays Destroy Terrible Termites

LOS ANGELES—A small black box which sends “death rays” into wood floors may be the answer to the household problem of destructive powder post beetles and termites.

Developed by Roy J. Pence, University of California entomologist, the death dealing unit utilizes infrared radiation to destroy the insects.

In field tests the infrared unit achieved complete kills of all development stages of powder post beetles, which have a fondness for expensive hardwood floors. Treatment of an area merely involves setting the box down and exposing the area to infrared radiation from five to ten minutes, depending on the thickness of the flooring.

The device is of simple construction, Pence says, and can be built cheaply in the workshop of any pest control operator. It consists of a light wooden cabinet and contains a battery and six standard infrared lamps.

Powder post beetles, which generally confine their activity within the limited thickness of a hardwood floor, have been particularly difficult to control.

## Medicine Takers Should Not Drive Automobile

CHICAGO—Barbiturates, antihistamines, and stimulating or “tranquillizing” drugs being administered for a variety of diseases are vying with alcohol as highway hazards.

Dr. Walter J. R. Camp, professor of pharmacology and toxicology at the University of Illinois School of Medicine, says that in some instances patients should not drive because of the effect of the medication being taken.

“Alcohol in some ways is not the most dangerous since the effects of overindulgence are usually obvious,” Dr. Camp points out, adding that “many persons of their own volition, or on advice of a physician, are taking drugs which have a definite effect on the central nervous system.”

## Termite Collection Includes Many Species

WASHINGTON—Got termites? The Smithsonian Institution has a collection of 230,000 specimens, including 1,286 distinct species of the approximately 2,000 known in the world.

This collection, probably the second most valuable of its kind in the world, represents the work of more than 40 years during which Dr. Thomas E. Snyder, retired Department of Agriculture entomologist, has collected termites in the Western Hemisphere, and has also obtained many Old World species by exchange and gift. Among the specimens are 943 “type specimens”—individuals to which all others of the species must be referred for final identification.

## Human and Fantom

BALTIMORE, Md.—Baltimore County added a Human and lost a Fantom all in one day. Human (Theodore H.) was hired by the Bureau of Engineering and Fantom (Francis C.) resigned from the Fire Department.

## Antioch's New Jewel Co. Food Store With Line at Opening

The new Jewel Company food store is shown with the line of customers awaiting the opening of the doors at the Grand Opening last Thursday. The store was busy all day and favors were given to hundreds who passed through the check-out counters.

## Ribbon Cutting Signals Opening of New Jewel Co. Store Last Thurs.

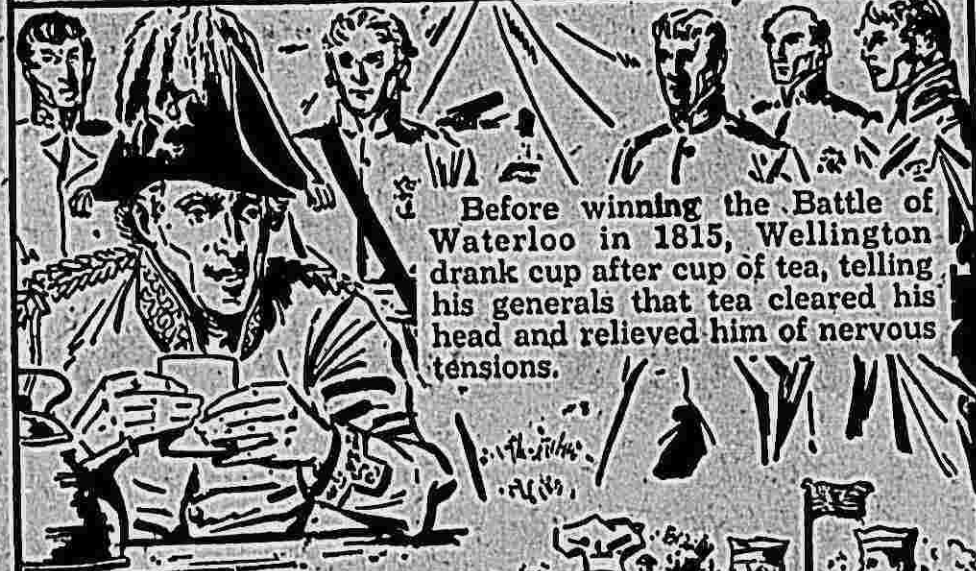

Participating in the ribbon cutting at the opening of the new Jewel Co. Store last Thursday are pictured, left to right, A. Van Heule, north division superintendent; J. A. Brewer, operations manager of all Jewel stores; O. I. Onstad, secretary, Antioch Chamber of Commerce; C. E. Fisher, north suburb district manager; Ollie Lundell, grocery manager, Antioch store; and Joe Lutz, market manager, Antioch store.

## Mrs. Ott Takes First Helicopter Trip

Mrs. Ernest Ott, 40 North Ave., is shown with Pilot Al Luke as they prepared to take off in the first of the free helicopter flights provided by the Jewel Company at its opening last Thursday morning. “It was delightful,” said Mrs. Ott in comment on the view of the Antioch area from 1,000 feet up.

## ODDLY ENOUGH by WALDMAN

American servicemen today drink more than 16 million gallons of tea with their meals every year.

To relieve modern conditions of stress, Dr. Alfred H. Lawton, U.S. Air Force Medical Research advisor, says tea “is as good an agent for the relief of fatigue as has yet been offered.” Tea gives an immediate lift, without a let-down, and “facilitates mental and muscular efforts.”

Phew! The least popular smell, experiments show, is a skunk-and-rubber combination.

### Special Entertainment Features to Highlight This Year's County Fair

In addition to the thousands of exhibits and displays visitors will see at the 1956 Lake County Fair and 4-H Club Show, they will also see at the 1956 Lake County Fair program including 4-H Club talent, fireworks, a rodeo, horse show, and radio and TV artists, according to E. E. Elshury, president of the Lake County Fair association.

The Lake County Fair and 4-H Club show will be held July 26-27-28-29, at the new Fair Grounds located at the junction of 45 and 120.

The hobby show and pet parade, which starts at 1 p. m. the opening day of the fair, Thursday, July 26, will be the start of a long program of entertainment. The pet parade will feature usual and unusual pets of children under 15 years.

On Thursday night the blue ribbon winners in the County 4-H Club Talent Festival will stage a program of Hawaiian and square dance numbers, vocal and instrumental numbers, and novelty stunts. More than 50 topnotch 4-H members will perform in this show.

The fireworks display this year is planned to be even bigger and better than that of previous years. The directors have authorized additional funds to give Fairgoers a really thrilling spectacle of aerial and ground displays. It promises to be one of the most colossal fireworks programs ever staged in Lake County. This feature will be presented on Friday and Saturday nights.

In addition to the fireworks display, Friday and Saturday evening will feature a thrilling rodeo performance by the Calzavara rodeo stars. Daredevil riders on bucking broncos and wild steers will perform. Everything that goes into a fast action rodeo performance will be included in the Friday and Saturday evening and Sunday afternoon performances.

For those who like the more gentle type of performances involving horses, there will be the open class and 4-H club horse show starting with the youth performance at 12:30 on Saturday, July 28.

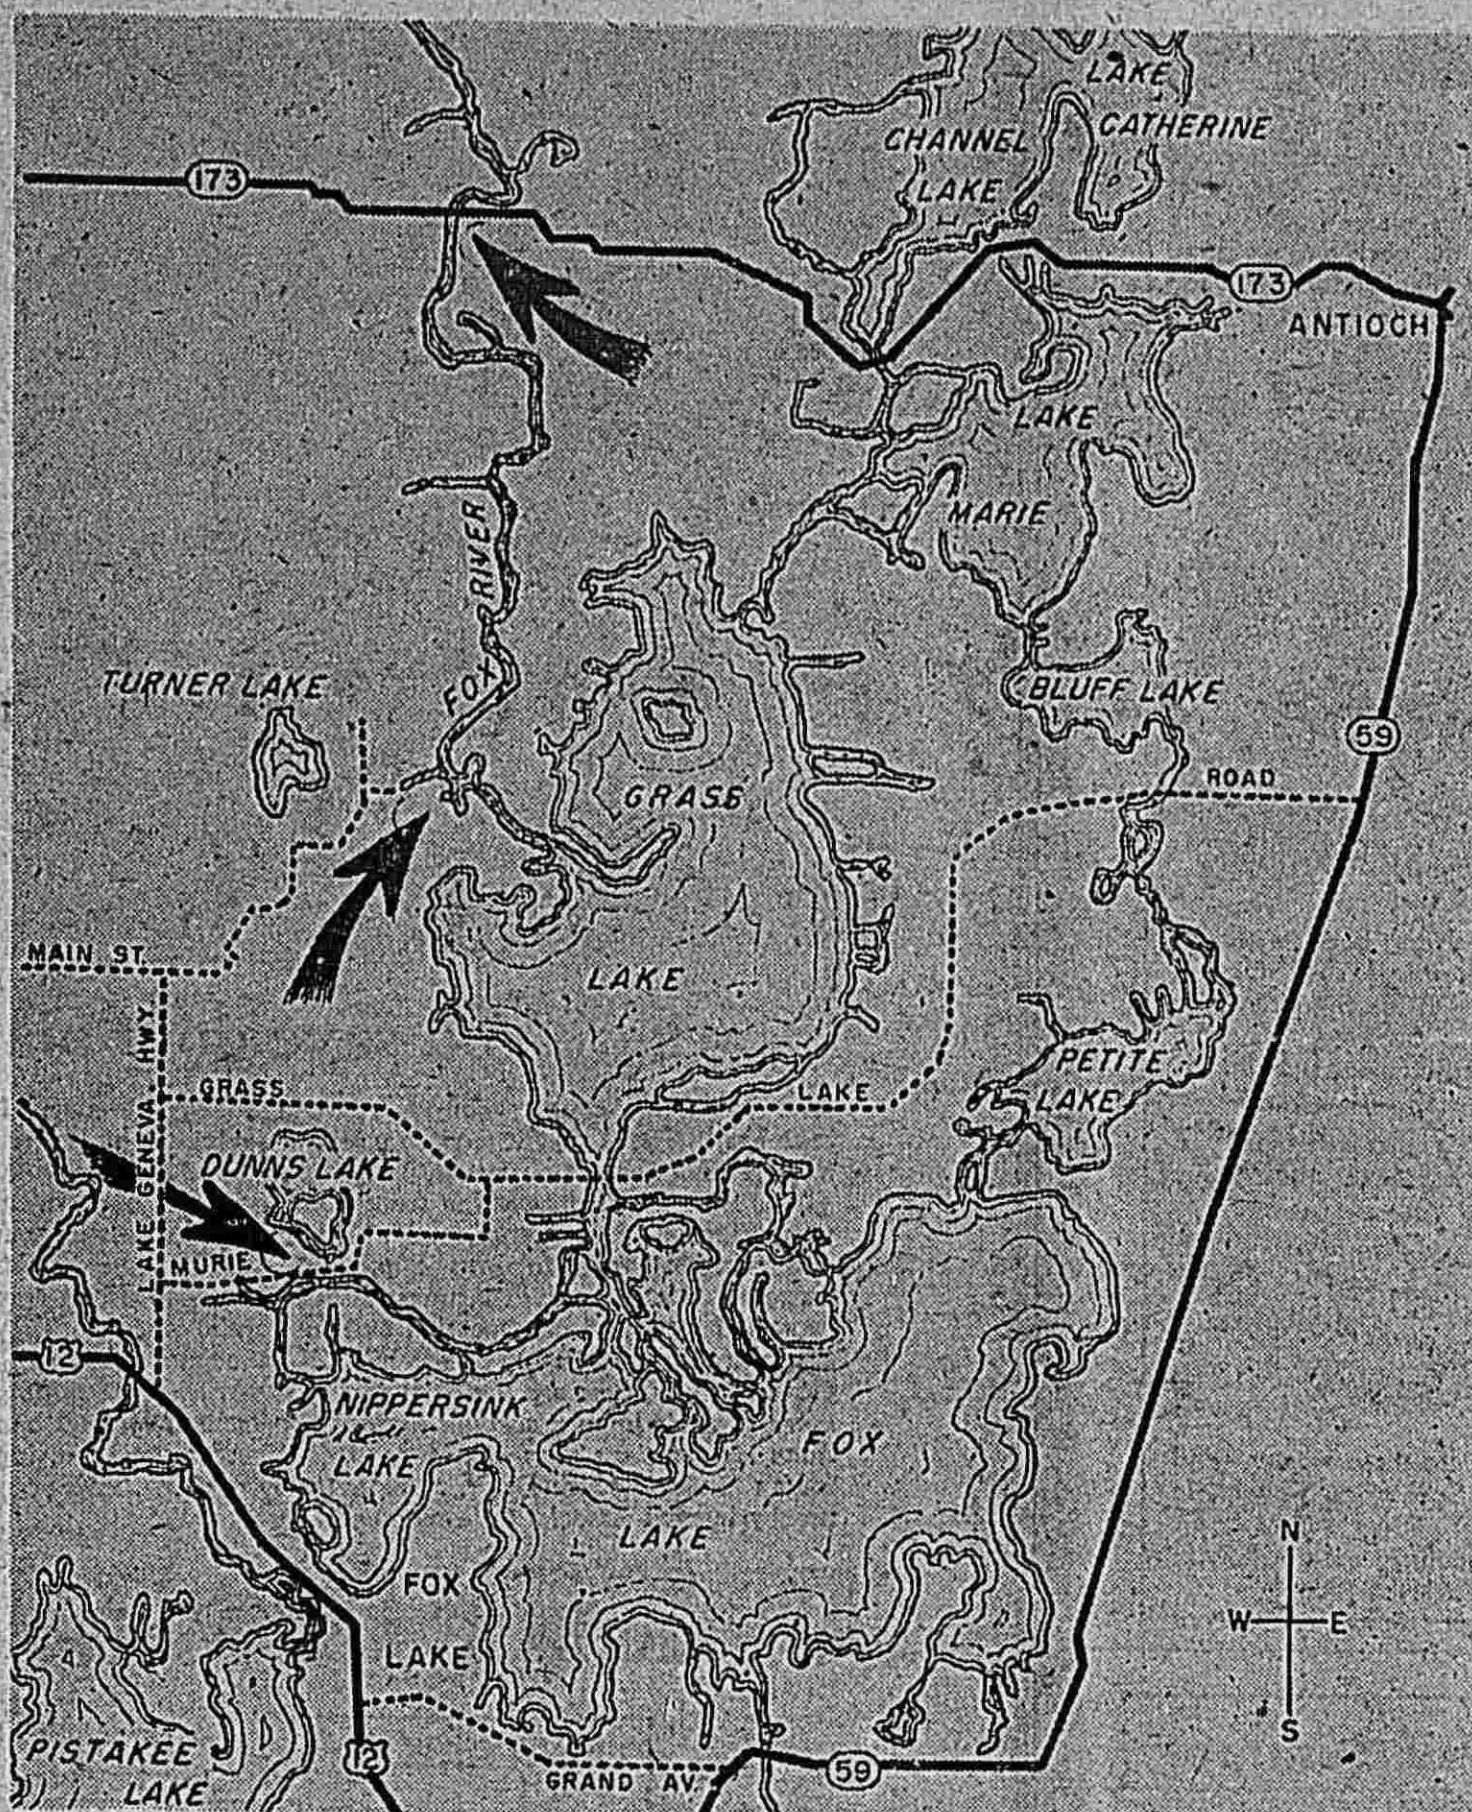

Featured in the 4-H Club show will be the 4-H Club members carrying pony and horse projects. The 4-H club horse show will include a pony pleasure class, 4-H equitation, a parade class and a western stock horse class.

The Open Class horse show will include a western pleasure class, three gaited saddle horses, knock-down-and-out, musical chairs, county pleasure horse, handy hunters, and junior musical chairs. The Open Class Horse show will follow the 4-H Club Horse show.

Several other interesting entertainment features are also planned, including Bob Atcher of radio and television fame, a quartet of vocalists from the Northern chorus, organists and others.

### Access Ports on Chain of Lakes Designated by Conservation Dept.

Arrows indicated where the new picnic grounds and boat landings giving access to the Fox River chain of lakes will be situated. Parks also will be sought on the east side of these lakes as soon as the land is acquired. The conservation camp at Fox and Petite lakes was not regarded as suitable because of the abruptness of the land along the shore.

(Photo Courtesy Waukegan News-Sun)

### Receive "A" Rating in 4-H Contest

Above are Karen Lightsey and Janet Kelsler in costume and pose from their skit "Love and Marriage," which took a superior rating at the "Share-the-Fun" party of 4-H clubs recently. It is possible that the act will be chosen for presentation at the Lake County Fair.

### Special Flower Arrangement Awards for 4-H Club Members at Fair

All 4-H Club boys and girls enrolled in the Home Grounds Improvement Project are eligible to enter the Flower Arrangement contest.

This contest is in addition to the regular Home Grounds Improvement Exhibits and is sponsored by Leonard Schmitt of Libertyville.

Mr. Schmitt, leader of the Willing Workers 4-H club, has provided \$4 for the first place winner, \$3 for second, \$2 for third, and \$1 for fourth prize.

Entries will be judged on the basis of flower arrangement. The arrangements should emphasize originality. Any 4-H'er eligible for this contest can win by creating a new or unusual arrangement, color combination or variety combination with flowers grown in the Home Grounds Improvement Project.

**Colored Shellac**  
Shellac can be colored any shade desired by spirit soluble aniline dyes dissolved in alcohol. After straining, the dye-alcohol mixture is added slowly to the shellac until the desired color is obtained.

### Annual Conference Week At Northwestern Univ.

The Northwestern University school of education will sponsor its first annual Conference Week Monday through Thursday, July 9-12, on the Evanston campus.

Featured during the four days will be lectures, study groups, and panel discussions centering around three major themes: "The Educational Administrator's Role in Personnel Relations," "The Business Teacher Looks at the Future," and "Guiding College-Bound Youth."

The event is open to teachers, school administrators, guidance workers, business managers, and any persons with a particular interest in education.

"Responsibility for students' educational development lies not only with school administrators and teachers, but also with leaders in business, industry, and labor, and lay citizens," said Jack Childress, assistant dean of the education school. "Therefore, Conference Week has been designed to foster understanding and cooperation among these groups."

### OUT ON A LIMB

By Stumpy McCulloch

"Old feller," said the traveling salesman to Ol' Jake, the cab driver, "why in the heck did you put this train depot so far from town?"

"Wal, I dunno," said Ol' Jake, scratchin' his head, "unless it was 'cause they wanted to get the depot just as close as possible to the railroad."

I was readin' the other day about the biggest fire department in the world, which is run by the Department of Lands and Forests up in Ontario to protect the province's 223,000 square miles of forest land. They don't have no fire pole to slide down, but they have just about everything else: 2,000 full-time rangers, 48 planes, 1600 boats and canoes, 800 trucks and tractors, 20 railroad tank cars, three million feet of hose, 20,000 axes and shovels, and a 700-unit radio network!

These Canadian firefighters have a big job, I reckon. Last year they put out nearly 2300 fires! The worst one, in the Adirondack Lake area, burned 69,000 acres of timber. It took 2132 plane flights and 660 men to put it out—but even then it left a black scar 20 miles long and five miles wide! They don't know for sure how it started. But they think it was probably caused by some feller who got careless. That's how most forest fires get started, you know.

By the way, Ol' Hannibal tells me the only thing he knows of that's fireproof is his boss's son!

Over in Wisconsin, I hear, there are now about 275 school forests, where schools raise timber and teach the principles of good forestry. The school at Merrill, Wis., for instance, has a 732-acre tract, where the youngsters are learnin' to be tomorrow's tree farmers! And someday, profits from the school forest will pay for Merrill's textbooks!

"I hear you're cartin' to raise bees," I told Ol' Jerry.  
"Yep," Jerry said, "I don't want to miss nothin'—and I've been stung every other way!"

See you soon!

### SCIENCE IN YOUR LIFE

#### Backwoods Surgeon

The modern surgeon who invents a radical new operating technique may fear that it won't be successful—but he's in no danger of being lynched if it isn't. The man who performed the world's first operation to remove a tumor from an ovary, however, had reason to fear precisely that.

The rope was ready for Ephraim McDowell that day in 1809. In the backwoods of Kentucky, a mob of more than a hundred frontiersmen battered at his door while he was working inside and accused him of trying to murder his patient. The dramatic story is told in Pfizer Spectrum magazine for doctors.

The operation was performed in the small town of Danville, to which the patient was carried on horseback from her wilderness home 60 miles away. Lying on a plain wooden table under the sedative effect of a few opium pills, the woman sang hymns in a quivering voice while McDowell and two assistants operated.

The operation, as both surgeon and patient knew, was extremely dangerous. Nevertheless, McDowell managed to remove the tumor and close the incision with complete success. The mob outside, mercurial in temper as most mobs are, cheered when it heard the news. The patient lived to be 78 years old. The pioneering surgeon lived too, to perform 11 more such operations, 10 of them successful—an amazing record in a period before anesthesia or antiseptics.

### TRUE STORIES of Famous Crimes

as told by JOHN LARKIN who portrays LI. DET. MIKE KARR in the CBS-TV drama

THE EDGE OF NIGHT

THE ORIGINAL JACK THE RIPPER

Every few days another woman was found similarly slain in the same busy area. Londoners walked with fear by day. At night, the streets were deserted. Those who had to walk there were terrified.

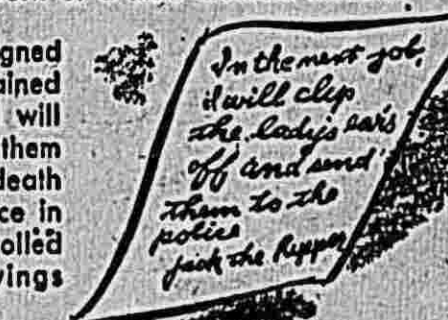

Notes were received by police signed "Jack the Ripper". They contained threats. One said "Next time I will clip off the lady's ears and send them to you." In all, 14 women met death within a few weeks, despite police in disguises who continuously patrolled the area. Suddenly the slayings stopped.

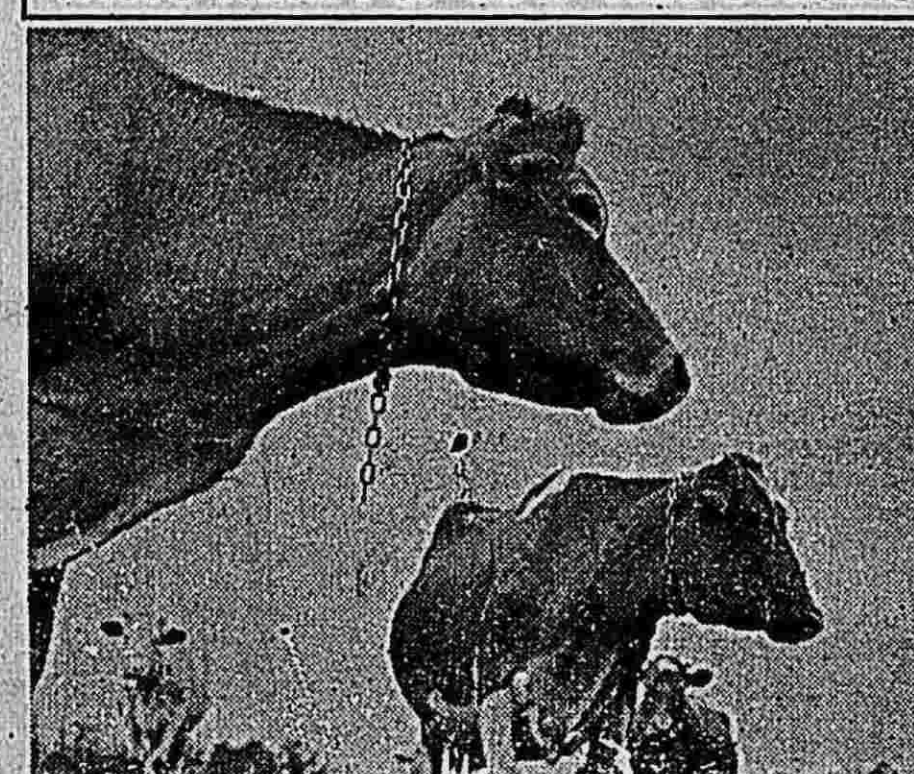

To this day many mysteries remain. Why were these women—and only women—killed? How did the murderer "get away with it" in the teeming streets of London? Why did he cut out the organs of his victims? Biggest question: In 1926, a dying medical man in Buenos Aires "confessed" these murders. Was he "Jack the Ripper"?

Strangely, every body was dissected with surgical skill. Organs were cut out with the precision of a surgeon. It was believed to be the work of a mad medical student.

### How To Get More Milk Per Cow This Summer

While milk production per cow is moving gradually upward, the potential is far from being achieved, according to the Union Bag & Paper Corporation which provides multiwall bags for animal feed.

Cows produce according to their inherited ability, their stage of lactation and the amount and kind of feed they eat. All being equal, the more a cow eats, the more profit she returns over feed costs.

Many cows are underfed during Summer months because farmers put too much faith in pasture feeding. Milk production drops off in July and August simply because cows on pasture are hungry.

Early in the Summer when grass is abundant, a cow eats enough to take the place of a full feed of hay and silage. But by mid-summer, sufficient nutrition is difficult to get.

Milk can be produced most economically from a ration based on good roughage supplemented with enough grain and protein to meet minimum nutritive requirements. Through proper supplementation in feeding, the Summer slump in milk production can be avoided by

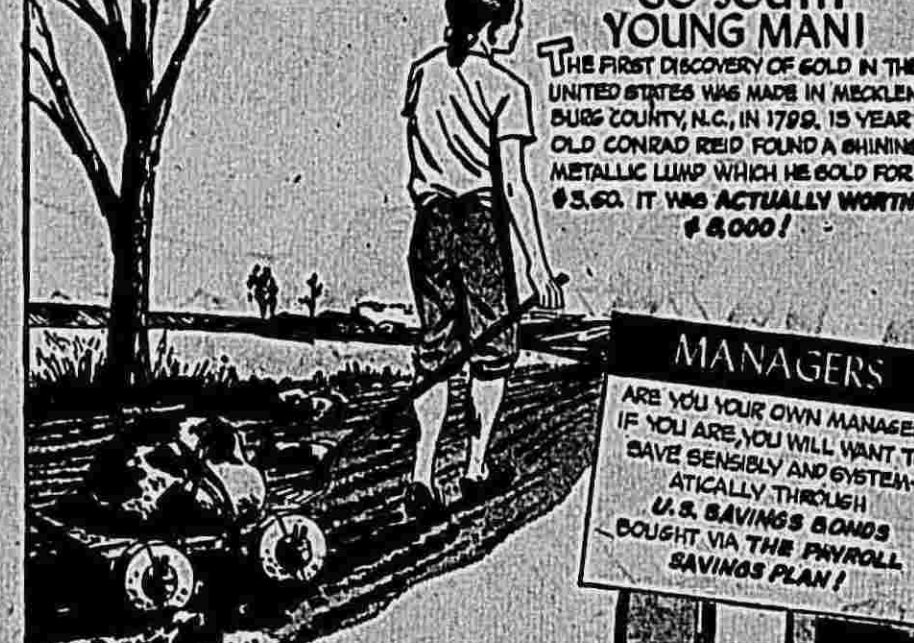

increasing the feeding of concentrates to offset the deficiency of the grass.

The U.S.D.A. has been keeping records since 1931 on the rations fed milk cows. During the first five years 15% of all concentrates fed were manufactured feeds. During the last 5 years the average jumped to 26%. The increase in improved feeding closely parallels the increase in average milk production per cow. Last year this reached an all-time high of over 5200 pounds!

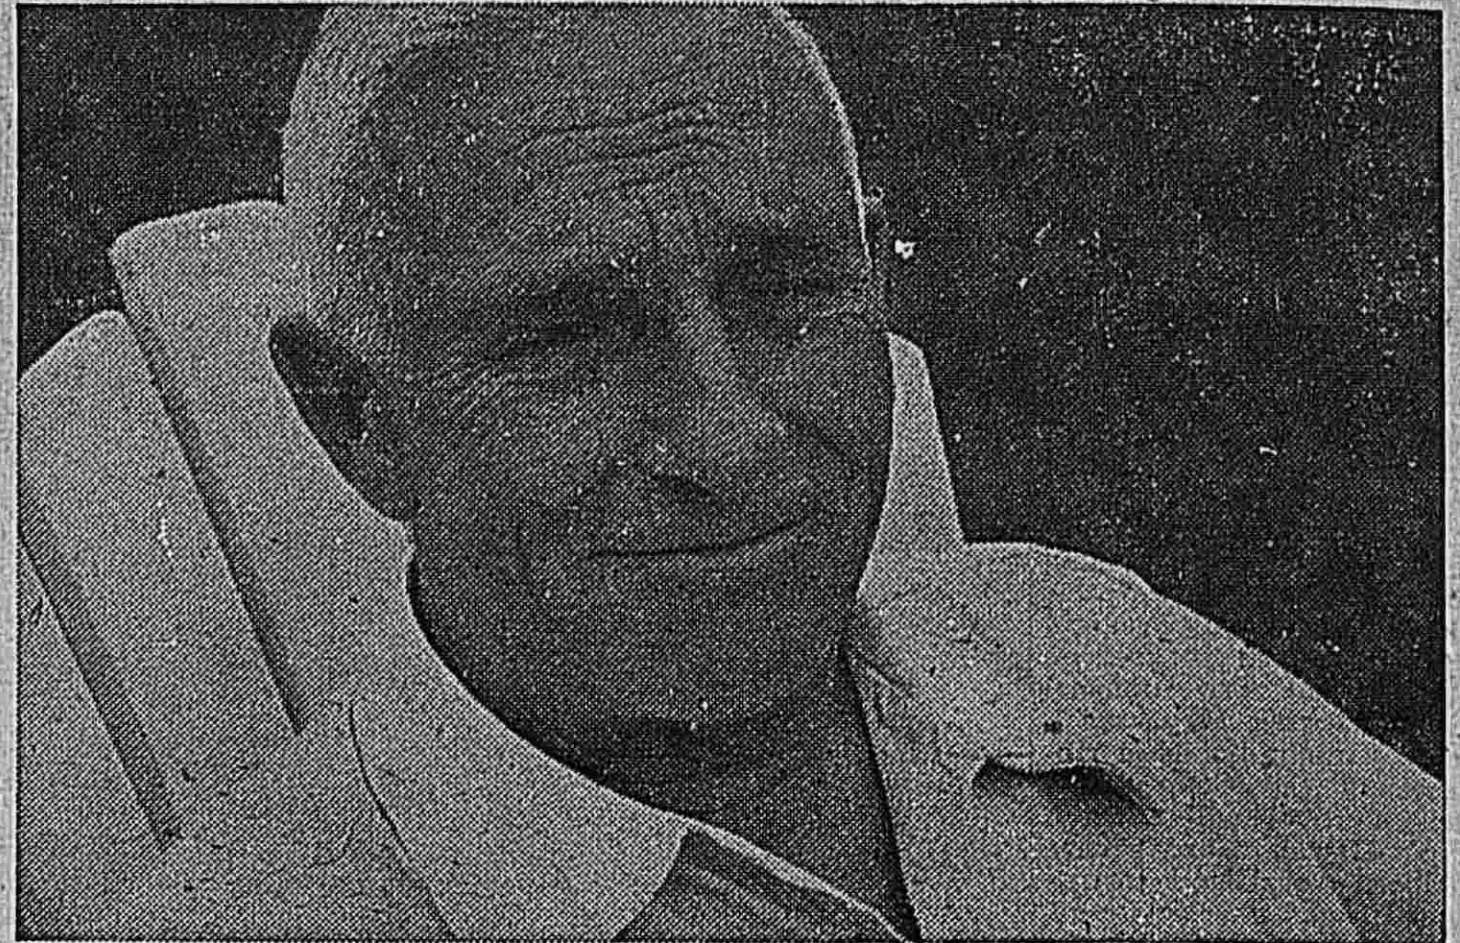

Dairymen at Ohio State University say that if all cows were as well fed as those in D.H.I.A., consumption of roughages would be increased 50%, nutrient intake would be doubled and the use of concentrates would be increased up to 20%. Such feeding practices would provide better dairy cow nutrition and lower the cost of milk production.

### THAT'S A FACT

#### GO SOUTH YOUNG MAN!

### If you're saving for your independence...

### ...where you save does make a difference

Every advantage counts when you're saving for your "Independence Day." That's why it pays to put your savings in an insured Savings and Loan Association. You benefit by many important advantages. Excellent returns from your money is one advantage. Efficient service from men who know how to make your dollars work harder for you is another. And, of course, your money is safe because in insured Associations your savings are protected by sound management and substantial reserves. They are insured up to \$10,000 by the FSLIC—an agency of the U. S. Government. These are the reasons why Americans are putting more of their savings account dollars into insured Savings and Loan Associations than anywhere else! Whether you're saving for an "Independence Day"... or a "rainy day"... visit your nearby insured Association tomorrow.

This sign identifies us as a member of The Savings and Loan Foundation, Inc., a nationwide organization of insured Savings and Loan, Building and Loan and Homestead Associations which sponsors this message in Life, The Saturday Evening Post and U. S. News and World Report.
